

## DevOps Engineer AI/ML (f/m/div)\*

### Job description

Do you want to participate in the exciting technological evolution of automotive electronics and autonomous driving? At Infineon, we have the size, the capacity and the opportunity to offer you this experience! In this position you are able to use your technical Know-How and skills while working with the existing AI infrastructure of Infineon! Seize your chance and apply now! Be a part of Infineon!

In your new role you will:

- Continuously **evaluate state-of-the-art technologies** in the MLOps domain
- **Work with cutting-edge technologies** (Kubernetes, Kubernetes Operator, Golang, Helm, )
- Seamlessly **integrate the tools** in the public & private **cloud setup** for Infineon
- Extend and **enhance the capabilities** of the existing **AI Infrastructure** at Infineon
- **Support the internal development teams** at Infineon using our AI Infrastructure

### Profile

You are best equipped for this task if you have:

- A degree in **Computer Science, Electrical Engineering** or comparable
- At least **3 years of professional experience in Software Engineering**
- Ideally **experience in operating or developing software** in modern cloud environments
- A strong **interest in learning the cutting-edge & emerging technologies** in the field of MLOps
- Familiarity in **working with container technologies** (Docker, Kubernetes, OpenShift)
- Knowledge in **working with AI & ML projects** in a professional environment
- Understanding of **CUDA and GPU** as an advantage
- Fluent **English** skills, German is a plus

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group G (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

The provincial capital **Klagenfurt**, in the heart of Carinthia, impresses with its liveliness, culture, numerous events and sights. The southern climate with the pictorial Wörthersee, the close link between urban infrastructure and rural areas as well as the proximity to Slovenia and Italy make Klagenfurt particularly livable.
