

Project Manager Product development (f/m/div)*

Job description

Do responsibility, quality awareness and a strong customer orientation characterizes you? Are you a team player who can bring people together towards a common goal and achieve top results? In Budapest you will find the right environment and a culture that promotes commitment, boosts trust and drives innovation. Join us as Project Manager and help us shape the future of technology.

As a **Project Manager** in the Product Development field, you will join a growing team and lead development projects through all milestones, coordinating a project and managing the product from the first design phase until the running production and sustaining tasks. You will be a key member of the development team, interacting with different stakeholders and driving the project team to success.

In This Role, You Will:

- Be the overall **re sponsible for the project success**: time and resource planning, project budget, performance targets.
- Assure the **continuous controlling of the project risks**.
- **Lead and develop** the project's teams.
- **Set up a successful stakeholder management**, active and target oriented communication with all relevant interfaces.
- Establish of a trustful and constructive collaboration.

Profile

Your dedication to customer's needs ensures a strong and short feedback loop on requirements. Thereby you remain aware of the big picture even in complex situations. You know how to cooperate across boundaries, building efficient synergies between your team members and with other departments in order to achieve the best results. Moreover, your team spirit allows you to communicate openly, clearly, and you coherently think and act in a cooperative way, working closely with international and cross-functional integrated project teams.

You are best equipped for this role if you have:

- University degree in Electrical Engineering, Physics or related area.
- Preferred 3-5 years of experience in project management in a technical environment.
- Expert knowledge in the technical field of power electronics or power semiconductors is an advantage.

Talent Attraction Manager

- Excellent communication skills, ability to present complex topics in an elegant and presentable manner.
- Fluency in English, German knowledge would be a plus.

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Industrial Power Control (IPC) empowers a world of unlimited green energy –

Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain.

As the global leader in power semiconductors, Infineon IPC delivers pioneering products, solutions and services for smart and efficient energy generation, transmission, storage, and use. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever it is needed.
