

## Continuous Improvement Program Expert (f/m/div)

### Job description

Would you like to embrace a stimulating career challenge and add a multicultural dynamic work environment to your daily basis? Do you love communicating with people, enabling them and fostering their talents? Here you will find a high skilled and dynamic growing team. If process optimization and quality enhancement are key terms to you, we believe that you would be the perfect fit for our new Continuous Improvement Program Expert in Cegléd.

As a Continuous Improvement Program Expert, you will be the YIP Program Manager responsible for developing the related framework and establishing a culture following the STAR Model. You will also institutionalize the Program and ensure sustainability.

In your new role you will:

- **Develop, deploy and sustain a Continuous Improvement Program** to handle operational improvements which complements the YIP program (e.g.: Mini-Kaizen, Small Group Activities, etc.).
- **Deploy and sustain a Visual Management System** enabling the YIP and the Continuous Improvement.
- **Team up with the communication department** to campaign for the YIP and to reward the participants.
- **Lead projects to improve the efficiency of the YIP and the Continuous Improvement Program** moving to the next level of **digitalization** (introduction of Electronic Booth in the shop floor, Introduction of a Ticket System).

### Profile

As an experienced enabler and strong communicator, you build and leverage professional networks towards achieving organizational goals and motivating people for joint success. You have a great set of analytical skills and a structured, self-driven working style that enables you to take ownership over your work and solve problems in an efficient way. You are thrilled by technical expertise development and exchange, being able to work well with your team towards common goals and easily coordinate your work with your colleagues. Furthermore, your proactive mindset allied to your focus on quality allow you to make things better, faster, and more efficient, playing a crucial role in the whole team's excellence goals.

You are best equipped for this task if you have:

- **Degree in a Scientific** field.
- **At least 5 years of experience** in a **Manufacturing** environment.
- **Project Management** skills would be an advantage.

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

### Backend

The **backend segments** enable the development of comprehensive innovation across the entire value chain: starting with chip manufacturing, to wafer testing, preassembly, package development and development of new materials. The backend cluster combines the competencies for planning, productivity, innovation and quality, assembly and testing.

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
