

Staff Specialist, Foundry Management SiFo

Job description

Support or manage Silicon Foundry related operations for Infineon products at SiFo, including new tapeout support and ramp-up of new products, to ensure on-time delivery with stable high yield and quality

1. Support or manage Silicon Foundry related operations for Infineon products at SiFo, including new tapeout support and ramp-up of new products, to ensure on-time delivery with stable high yield and quality.
2. Co-work with cross-functional team to improve and control the manufacturing of Infineon products at SiFo
 - * achieve operation team targets in yield, delivery performance and quality (incl. new product ramp-up)
 - * manage team with partners and keep all necessary partners informed (internally and externally)
 - * make or drive proactively decisions needed for daily operations
 - * manage actions to prevent/handle excursions
 - Reporting and controlling of daily operations
 - Ensure process execution and implementation of initiated actions
 - Monitor initiated actions and define corrective measures
3. Support the team to achieve the objectives in terms of cost, quality, speed, stability, synchronization and innovation in the domain of technology transfers and conversions, with a focus on seamless transition to ramp-up.
4. Support and maintain the partnership together with Procurement
 - Establish and maintain relationship with partners (e.g. fab management)
 - Keeping management and related parties informed about operation status and topics
5. Quality management, drive foundry to achieve highest quality standard and ensure zero-defect executed for production. Drive to prevent FAR and MRB.

Profile

1. Master of Science in Physics, Material Science, Electrical Engineering or related engineering degree
2. Experience in Fab process integration, product engineering, wafer sorting and customer service engineering. IC design experience will be a plus. 4+ years work experience is required.
3. Technologies transfers and ramp experience is preferred but not a must
4. Leadership & Team Player.
5. Proactive attitude for new challenges and problem solving
6. Multicultural experience.
7. English fluency is a must.
