

## Senior Director Procurement Silicon Foundries for Power Technologies (f/m/div)\*

### Job description

As central function, Procurement is responsible for the whole sourcing volume of Infineon and contributes significantly to achieving our financial goals and to Infineon's growth. As our new Senior Director Procurement and Category Manager for Power Technologies you will be heading a global team of experienced purchasing managers who are responsible for the whole supplier life cycle process of our strategic silicon foundries suppliers. In this function you will drive our outsourcing strategy with a strong impact on the overall company result. Since Infineon is a leading company in power technologies and in order to contribute to a greener world it is our aim to enable our supply partners with enhanced technologies to grow within this highly demanding market. If that challenge sounds just like you, then apply now!

In your new role you will:

- Own the **global responsibility** and **be accountable for Infineon's worldwide outsourcing strategy/projects** for Frontend (Silicon Foundry) for Power Technologies
- Be responsible for a **yearly procurement volume (PVO) of more than 250 million EUR** and a yearly PVO of more than **2 billion EUR** for projects during the sourcing phase
- Be the **Head of a global team of experienced purchasing managers** who drive the individual supplier life cycle process from strategy mapping and evaluation to phase out
- Take over the **leadership of key strategic projects** with direct reporting to Division Heads / COO / IFX Board
- Strive for the maximum contribution of Infineon's Silicon Foundry partners to Infineon's **segment result margin, secure supply** and **CO2 strategy**
- Act as a member of the worldwide Silicon Foundry Procurement Leadership Team
- Be the **owner** of cross-functional / divisional **outsourcing strategy**
- **Strongly interact with internal stakeholders** regarding the **internal capacities** with high complexity according to Infineon's overall **manufacturing strategy**

### Profile

Do you recognize and seize potential for improving efficiency with dedication, focusing on results and staying aware of costs while remaining focused on the big picture even in complex situations and under pressure? You demonstrate excellent communication skills and know how to establish sustainable relationships and networks. If you furthermore are able to identify high potentials, foster their competences for the long

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

*This position of **Senior Director Procurement Silicon Foundries for Power Technologies (f/m/div)\*** is a position of trust at Infineon Technologies AG. For this reason, Infineon is required under the German Corporate Control and Transparency Act (KonTraG) to identify and minimize potential human risks to avert damage to the company.*

*To meet this legal obligation, Infineon conducts a check on the correctness of information provided by individuals in their employment application, including employment history and documents submitted, possibly with the assistance of a third party. A further security check is also carried out that includes a credit check, company investments, and potential involvement in criminal acts.*

*The data and findings acquired for and during these checks will be used and stored exclusively to confirm your details. In the event of non-recruitment, the data collected will be deleted six months after receipt of the rejection notice.*

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
