

Senior Project Manager for Product Development of SiC MOSFETs (f/m/div)*

Job description

As a Senior Project Manager, you take over an important role to develop new SiC Power Devices for making life of everyone greener, safer and easier. These products increase the energy efficiency of e.g smartphones, e-bikes or solar panels. This job offers more than only project management: You also take over technical tasks for realization of the final products. This gives you the chance to work with an international team for defining all pieces of a puzzle to release a product that fulfills customer expectations. Take the chance to be part of our team in Villach!

In your new job you will:

- Lead **product development projects** for realizing a SiC device portfolio
- **Accompany and shape the product development life cycle** from product idea until release of the product
- Set up **electrical characterization** of the final product and analyze measured data
- **Collaborate** with different development departments (technology, packaging, marketing, R&D, quality management, etc.)
- Form, **guide and motivate diverse, cross-functional project teams**
- Look at the **bigger picture, with business in mind**, in order to identify challenges and working closely with your stakeholders to come-up with solutions
- Ensure that the project follows **internal rules and regulations** at any stage of the project life-cycle
- **Be part of the success story of Infineon**

Profile

You are best equipped for this task if you have:

- A **university /university of applied science degree in Electrical Engineering, System Engineering, Power Electronics, Material Science, Applied Physics** or comparable
- **6+ years working experience** in the semiconductor industry **in special for SiC based products**
- **4+ years of experience in leading projects** (IPMA-C certified as a plus)
- Profound knowledge in **device- & semiconductor physics**
- **Fluent English skills**, German skills or the willingness to learn as a strong advantage

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities –

Infineon **PSS** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication. [Click here](#) for more information about working at PSS with interesting employee and management insights and an overview with more #PSSDreamJobs.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3900 colleagues from over 70 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Due to its particular geographic location and the outstanding natural beauty of the region, Villach and the whole province of Carinthia have for generations been popular holiday destinations for people from all over the world. Living in Austria also has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
