

## Senior Staff Specialist Funding (f/m/div)\*

### Job description

You want to be part of making the European Green Deal a reality and bring your semiconductor experience to the next level by taking over self-determined tasks? You want to work in the fast-growing field of micro-chip development, with applications ranging from solar to wind power, from e-mobility to railway? Then, this is the right job opportunity for you!

As Senior Staff Specialist Funding (f/m/div)\* you acquire and manage funded projects in the field of our Industrial Power Control (IPC) division. You identify challenging topics within the Infineon roadmap and use national as well as European networks to leverage funding opportunities. Your challenge is to link funded projects with our internal production activities like process and technology developments as well as projects linked to the digital transformation of our working environment.

In your new job you will:

- **Network** within the **organization of Infineon** to **develop innovative, funded projects**
- Be responsible for the **holistic and overall handling of respective projects**
- **Collaborate** with **internal and external international project partners**
- Be responsible for **reporting and support deliverables**
- Support the **execution of project reviews**

This position can be filled full time or part time.

### Profile

You generate value with your ideas and solutions and pursue ambitious goals. You enjoy working in interdisciplinary teams and due to your remarkable networking skills, you are able to quickly establish successful cooperation. You can convince with strong analytical skills, technical knowledge and communicative competence.

You are best equipped for this task, if you:

- Have an **university degree in a technical subject** or comparable study
- Have at **least 5 years of experience** in the **semiconductor industry**
- Bring along **first experience in development** and management of European and national funding projects are of advantage
- Have already gained **experience in working in technical projects** and are able to demonstrate according **project management skills**
- Are willing to **occasionally travel within Europe**

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

**Industrial Power Control (IPC)** empowers a world of unlimited energy - Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain. As the global leader in power semiconductors, Infineon IPC delivers leading products and solutions for smart and efficient energy generation, transmission and consumption. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever they need it.
