

## Assistant Product Engineer (f/m/div)\*

### Job description

Have you ever wondered how it is to work in a company that shapes the future? At Infineon we have the opportunity to offer you this experience! Join us now as our new Assistant Product Engineer and develop your career further! Be a part of the future, be part of Infineon Villach!

In your new role you will:

- **Support** a team consisting of process integration engineers and product engineers
- **Perform** initial **assessments** and **analyses** on Prolots for known failure modes
- Ensure a fast feedback to production by **owning and proactively driving Prolot management** within the department
- Perform **standard electrical analyses** on development lots (e.g. analysis of splits)
- **Organize failure analysis** jobs
- Occasionally **perform analyses in the production line** (microscopy, inline SEM, profilometry, wafer bow measurements)

### Profile

You are best equipped for this task if you have:

- **Completed a technical education** (vocational training, HTL or similar)
- Several years of **work experience** within the **semiconductor industry**
- **Strong analytical skills** and interest in systematically resolving recurrent problems
- **Fluent in German** and **good English** communication skills

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry, at least employment group E (<https://www.feei.at/leistungen/informations-service/mindestloehne-und-gehalter>). The monthly salary is paid 14 times p.a. A higher payment is negotiable depending on your expertise and skills. Furthermore, Infineon offers additional employee benefits.

### Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure,
