

Cyber Threat Intelligence Analyst (f/m/div)*

Job description

Are you passionate about cyber and information security topics? Do you enjoy the field of cyber threat intelligence? Infineon CYBER is growing and they want you to be part of the team. Join the international environment of a global leader in the semiconductor industry as a Cyber Threat Intelligence Analyst in Porto.

As a Cyber Threat Intelligence Analyst, you will be responsible for providing threat intelligence to all relevant counterparts at Infineon.

In your new role you will:

- **Collect, process, analyze and disseminate information** on cyber security;
- **Improve tool landscape** by actively participating in existing tool development;
- Work closely with CYBER teams and **provide threat intelligence**;
- **Monitor the cyber security threat landscape** relevant to Infineon;
- Support **advanced incident response** across Infineon's global networks.

Profile

You have a hands-on approach to work and are able to take responsibility for your area of expertise. You have a proactive attitude and are passionate about improvements. Moreover, you have great communication skills and are able to establish a successful collaboration with others.

You are best equipped for this role if you have:

- A University **degree in Computer Science, Software Engineering** or similar field of studies;
- **Experience as a Cyber Incident Analyst** or similar role in security monitoring and detection, host and network security event analysis, threat and attack vector analysis, etc.;
- Knowledge about the **threat intelligence incident lifecycle**;
- **Programming/scripting skills** for automation for example in Python or Go;
- **Fluency in English**.

Benefits
