

Project Manager Industrial Gate Drivers (f/m/div)*

Job description

Do you want to contribute to a sustainable future by generating leading edge innovation and bring Infineon's strategy to success? And do you want to lead and coordinate an international project team and be a role model by combining highest technical expertise with advanced project management skills? Then you are the right person to apply for this demanding and highly attractive position offering a professional environment and excellent career perspectives in the No. 1 company for power semiconductors.

In your new job you will:

- **Plan, organize, and control IC development projects** throughout the project life-cycle
- **Act as the main contact for all questions** regarding the projects you are driving
- **Lead and coordinate the overall project team** - Marketing, Application Engineering, Design, Layout, Product and Test Engineering
- **Be fully responsible for all operational decisions** concerning a given project and for the successful achievements of the defined target
- **Act as interface to front end and back end production** and logistics
- **Coordinate and synchronize activities** with technology and package development teams
- **Regularly report to Business Line management** and take care of project documentation and archival process in compliance with defined development process

This position can be staffed at our sites in **Villach** or **Pavia**.

Profile

You are best equipped for this task if you have:

- **A degree in Electrical/Electronic Engineering** or similar field or Business Administration
- **At least 5 years of working experience in the semiconductor** or related industries, preferably dealing with multisite/multicultural teams
- **Knowledge in project life-cycle and related project management processes** and methodologies (e.g. planning, risk management, tracking, reporting)
- **Understanding of semiconductor technologies** and products
- **Fluent English skills** (Italian and German will be a plus)

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

Industrial Power Control (IPC) empowers a world of unlimited energy - Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain. As the global leader in power semiconductors, Infineon IPC delivers leading products and solutions for smart and efficient energy generation, transmission and consumption. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever they need it. At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with colleagues from almost 70 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Due to its particular geographic location and the outstanding natural beauty of the region, Villach and the whole province of Carinthia have for generations been popular holiday destinations for people from all over the world. Living in Austria also has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
