

Internship: Digital Design Backend

Job description

We are looking for motivated and committed students (f/m/div)* who are willing to learn new things and work in a innovative company acting on a global scale. An exciting working environment characterizes this internship as well as an attractive salary. Apply now for this internship in Graz and support our team.

We are looking for a student in order to **support** our **digital design backend team** according to digital hardware design, synthesis and place&route. You will learn how to **use** our **company frameworks** and **tool-flows** for **generating RTL code** as well as modern **SystemVerilog test bench architectures** and understand the respective generated code. You will learn how to **simulate** and **analyze** the **behavior** and will contribute in the **development of digital basic functional blocks**, which shall subsequently be used by other colleagues in product development-teams. Hence code quality, readability and versatility will be target. The respective development team is multi lingual and multi-cultural so good skills in **English** are key to master the tasks at hand. The development team is organized in an agile development setup, which fosters communication and mutual learning as well as team integration.

Further Information:

Type of employment: Temporary / Part-time (flexible working hours from Monday to Friday between 6 a.m. and 7 p.m.)
Duration: min. 6 months

Profile

You successfully meet the requirements, if you are a motivated and committed student from the field of **Computer Science**, **Electrical Engineering** or similar. You are best equipped for this task if you additionally offer:

- Good **analytical thinking** and **communication skills**
- Fluent **English** skills with German skills as a plus

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry (full-time), employment group B for bachelor students, employment group D for master students (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>).

Please attach the following documents (German or English) to your application:

- Motivation letter
- CV
- Certificate of matriculation at a university
