

IT Solution Owner for Process Control Systems (f/m/d)*

Job description

Do you like to become a technical team leader dedicated to monitor and control our IT Solutions for Process Control and Automation (Siemens PCS7) mainly used within the area of facility management? If you are eager to contribute to maintain and further develop our high-performance processes around our worldwide Siemens Simatic systems, we have the right job for you! Apply now and become part of our team in Klagenfurt!

As an **IT Solution Owner**, you will act as a **project manager**, among other things, and will be **responsible** for **monitoring** and **controlling** our **IT solutions**.

In your new role you will:

- Act as **Project Manager** for mid-size and large **IT** or **automation projects**
- Coordinate **PCS implementations** worldwide
- Coordinate **external service providers** worldwide
- Insure **quality for customizing / development** delivered by **external service providers**
- Act as **in-house consultant** for your internal customer **Facility Management**
- Actively support **process** and **system consolidation** activities
- **Analyze** existing **process implementations**
- Create **solution proposals** and **blueprints** for **change** requests and **project requests**
- **Provide IT support** for **Siemens Simatic PCS7** solutions **worldwide**

Profile

You are best equipped for this task if you have:

- A university degree in **computer science** or **automation technologies**
- Understanding of **complex software- and data landscape**
- Experienced with **automation systems** like **Siemens Simatic PCS7**
- **Database know how** (Oracle, MS SQL Server, MySQL)
- **Debugging** and **programming** skills (PCS7)
- Window **Server administration** (basics)
- **Network** and **fire wall** setting (basics)

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

Die Landeshauptstadt **Klagenfurt**, im Herzen Kärntens, besticht durch ihre Lebendigkeit, Kultur, zahlreiche Veranstaltungen und Sehenswürdigkeiten. Das südliche Klima mit dem malerischen Wörthersee, die enge Verbindung zwischen städtischer Infrastruktur und ländlichem Raum sowie die Nähe zu Slowenien und Italien machen Klagenfurt besonders lebenswert.
