

Robotic Process Automation Specialist (f/m/div)*

Job description

Do you have the ambition to be part of a fast-paced and technologically driven company? Are you interested in taking your career to the next level by embracing this challenge in a multinational environment? Then join our motivated team of experts in Porto as a Robotic Process Automation Specialist and develop your skills by sharing your ideas with some of the best professionals in the field.

As a Robotic Process Automation Specialist, you will leverage technology to support intelligent automation within Infineon Service Centers. You will also play a crucial role in the Robotic Process Automation setup within Shared Service Environment, developing RPA solutions for functions in scope.

In your new role you will:

- **Automate processes** by developing **RPA solutions**.
- **Analyze, understand and document business processes** in detail where required.
- Perform End-to-End process assessments for **Automation feasibility**.
- Be responsible for **troubleshooting activities** that arise in day-to-day RPA processes, providing timely responses and solutions as required.
- **Cooperate within project planning constraints**, communicating any identified project risks and issues to the delivery/project manager accordingly and providing inputs to the change control process.
- Support Operational Teams during the **UAT and rollout phases**.

Profile

You are result-oriented and have a structured and self-driven working style. You add value with your ideas and solutions by thinking ahead and having high-quality standards. Your great communication skills allow you to quickly establish successful cooperation within your team and different stakeholders. Furthermore, you demonstrate strong analytical skills, being able to analyze complex requirements and define technical/functional advanced solutions.

You are best equipped for this task if you have:

- A degree in **Mathematics, Electronics, Business Informatics or Engineering**, or equivalent field of studies. Professional education in Computer Science, Economics or Finance related is preferred.
- At least **2 years of experience with UiPath** (or similar tool). **RPA Developer Advanced Certification** would be an advantage.

Talent Attraction Manager

- Good understanding of **business processes** (e.g. Finance, Logistics, Procurement or others).
- Experience with **Excel Macros** (including the ability to translate macros into RPA solutions and/or integrations).
- Basic knowledge of at least one **computer programming language** would be a plus.
- Experience in working with other **digital enablers** (e.g. Intelligent OCR or Machine Learning solutions, or other IT systems in an SAP environment) would be an advantage.
- Experience in **Shared Service organization** and **Project Management** would be an advantage.
- Fluency in **English**.

Please send us your CV in English.

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– **Feel welcome at Infineon Shared Service Center in Porto!** –

Our multifunctional business model is focused on high quality services through operational excellence with engaged people. We are recognized globally at Infineon as a valuable business partner.

These are the main business services on our site: Finance, Purchasing, Human Resources, Robotic Process Automation, IT, Audit, Legal, Compliance, Business Continuity among other areas that consolidate us as a high-quality partner.
