

Manager Field Application Engineer for Automotive Microcontroller (f/m/div)*

Job description

You are interested in Megatrends within automotive application areas such as Zone Controllers, Body Applications, Connectivity and Security? Your friends say fuel and electricity runs through your veins? As a Field Application Engineer (FAE) at Infineon, you will mainly support our customers during the evaluation and development of their systems. After all, we offer the opportunity to work in innovative automotive application areas as part of our highly motivated European Key Account Team. Within this role, you will get the chance to work on and challenge yourself with creative solutions as well as concepts of tomorrow and beyond.

With this position you will be entering our „technical ladder”: our career path for experts. You will be able to focus deeply on technology – while further pursuing your career. As you continually expand your expert knowledge, puzzle over matters and solve problems, you will position yourself as a thought leader – thus helping our products improve our world a bit more each day.

In your new role you will:

- Be the **first level technical contact** for a major automotive customer in Europe, with a focus on **Microcontroller Hard & Software** in key automotive applications
- Work proactively on **optimized microcontroller unit (MCU) Solutions** for our customer's applications in the areas of body electronics.
- **Manage projects** independently
- Discuss **innovative Microcontroller Solutions** and application approaches
- Prepare and execute **customer presentations**

Profile

You describe yourself as someone who accepts responsibility for common goals and puts the team's results above your own interests. Next to that, you have a clear notion of how innovation contributes to the commercial success of the company.

You are best equipped for this task if you have:

- **A degree in Electrical Engineering, Physics, Information Technology** or corelated areas
- At least **5 years of professional experience** in a similar role
- Specific **knowledge in Microcontrollers** and its peripherals / interfaces (ideally in AURIX Microcontroller)

At a glance

Location: **Munich (Germany)**
Job ID: **354325**
Start date: **as soon as possible**
Entry level: **5+ years**
Type: **Full time**
Contract: **Permanent**

Contact

Vivian Dudek
Talent Attraction Manager

- Knowhow and deep understanding in **AUTOSAR & Mcal** is seen as a plus
- **Smart Power knowledge** (advantageous)
- Excellent communication and technical skills and enjoy working in teams
- **Fluent German and English skills**

Benefits

- **Munich:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; On-site creche and kindergarden with 120 spots, open until 6pm; Holiday child care; On-site social counselling and works doctor; Health promotion programs; On-site gym, jogging paths, beachvolleyball, tennis & soccer court; On-site canteen; Private insurance offers; Wage payment in case of sick leave; Corporate pension benefits; Flexible transition into retirement ; Performance bonus; Reduced price for public transport and very own S-Bahn station; Access for wheelchairs

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon **ATV** is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.
