

Senior Project Manager

Job description

Infineon Technologies is seeking a Sr. Project Manager with experience in microcontroller and/or wireless embedded systems development to join the ICW (IoT Compute and Wireless) Business Line team in the US to work on building the next generation of IoT silicon and software. Your responsibilities would include leading key new development projects from launch to production and driving project management process improvement throughout the org. You will be expected to understand technical details and have a background in silicon and/or software development with a desired experience across the full product development cycle.

In your new role you will:

- Leadership, in a matrix management configuration, of a global cross functional product development team
- Plan, organize, drive, and control the project
- Responsible for the project execution success and ensuring achievement of the strategic project targets: scope, budget/effort, time
- Continuously evaluate and track risks. Plan and execute mitigating measures
- Collect and present high level accurate status reports to executive management
- Monitor and enforce compliance to business processes
- Drive key continuous improvement activities within the business line, division and wider Infineon Project Management community

Profile

You are best equipped for this task if you have:

- **10-15+ years total experience in silicon and/or software development** with at least 8+ years Project Management experience
- Excellent **verbal and written English communication skills**
- Experience in **managing and developing project managers**
- Open to **working in a collaborative environment** and willing to challenge themselves and the team in order to deliver products to market in a fast moving industry
- **Experience with numerous program management tools**, methodologies and best practices
- **IPMA C** preferred

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

Cypress Semiconductor Corporation is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE:

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
