

## Senior Engineer Emerging Applications (f/m/div)\*

### Job description

Are you interested in starting and accelerating the business of tomorrow? Are you passionate about identifying, understanding, evaluating and then driving new applications into the market? Then this is the right place to be! We are seeking a technical mastermind and a team player with a curious and entrepreneurial mindset to join our Emerging Application Team. As our new Senior Engineer Emerging Applications, you will connect Infineon's innovative technologies to emerging application markets to start off new application business globally.

In your new role you will:

- **Identify new, potential emerging applications** with a lot of growth potential for Infineon
- Understand, structure and analyze **application requirements**, describe and own Application Assumptions
- **Define and analyze concepts** for Infineon solution offering including technical evaluation of alternative concepts
- Provide expert (3rd level) **application level design-in support** for Infineon solution offerings
- Support **technical Go-to-Market activities** on application level to enable design-in / win
- Support the **creation of prototypes** for customers on application level

### Profile

You are curious, hands on, able to develop ideas and translate them into concrete solutions solving customer problems. With your attitude, you inspire and encourage your cross-functional team & customers to succeed while never losing sight of the big picture.

You are best equipped for this task if you have:

- A degree in **Electrical Engineering, Physics, Industrial Engineering**, ideally complemented with a high interest in Business
- At least **3-5 years experience** in Technical Marketing / FAE / Application Engineering related functions, ideally within a high tech company and/or in a tech focused consultancy
- Profound know how to bring **revolutionary technology offerings to a global market**
- Prior experience in working within a **multinational environment** (Asia and/or Americas)
