

Staff Specialist Engineering Sample Coordinating

Job description

Staff Specialist Engineering Sample Coordinating

In your new role you will:

- Manage & work with external Subcontractor globally to maintain Cycle Time and On Time Delivery of engineering samples.
- Work with Subcon to support fast turnaround of shipment dates for ES & expedite any critical orders.
- Daily close monitoring of all active orders to completion (until ship out).
- Understand ES rules and work closely with Subcon to ensure adherence to the rules on engineering sample request.
- Work with Subcontractors to analyze assembly and test delay and work with group Team Leader to discuss and agree on improvement action from Subcon.
- Weekly analysis of orders with issues.
- Participate in regular meeting with ES team & Subcon and PL (or any other related request meetings).
- Work with Team Leader to support any escalations reporting or meeting preparation.
- Support Team Lead and Dept manager as needed.

Profile

You are best equipped for this task if you have:

- Bachelors Degree in Manufacturing, Mechanical or Business Administration.
- 2-3 years experience in manufacturing environment with a general understanding of assembly and test process.
- Preferably at least 1-2 years experience in Subcon management.
- Experience working in multinational company & ability to handle various diversity factors that comes with multinational company including different time zone, race and culture.
- Demonstrate initiative, persistence and creativity in problem solving.
- Multi lingual with ability to speak Mandarin an added advantage.
