

## Senior Director Evangelist Enterprise Architecture (f/m/div)\*

### Job description

Do you possess hands-on experience of IT Platforms and Infrastructure architectures and a strong spirit of innovation? In this role, you will be responsible for driving and coordinating architectural decisions and development, reporting to the CIO.

In your new role you will:

- Be responsible for the IT Enterprise architecture management and orchestration of solutions and technologies between the different teams
- Evangelize a knowledge sharing culture within the organization strongly anchored towards Innovation, Simplification and Automation
- Lead a global virtual architecture team acting as a consultant to all IT functions and Business functions working on or with IT technologies and processes.
- Be responsible to ensure definition and maintenance of standards, best practices and principles in the enterprise architecture and drive key platform /infrastructure reference blueprints for the main IT components
- Set up architectural capabilities and assist in establishing foundations for transformation projects
- Drive and coordinate global enterprise architecture activities and contribute in the required analysis where applicable in collaboration between IT functions and business to provide a holistic view of the respective applications/technologies
- Ensuring the Enterprise architecture implementation by showcasing the potential uses and benefits of a technology to help others understand how they can use it for themselves.
- Represents IFX IT at external conferences regarding Enterprise Architecture Topics

### Profile

You are best equipped for this task if you have:

- A Degree in Computer Science, Computer Engineering, Industrial Engineering, or a comparable field
- Over 8 years of experience in computer science or business administration and architect role.
- Proven or direct experience in managing Architectures in bigger enterprises
- Outstanding communication and management skills between people and organizations.
