

Sr. Project Manager, DC-DC Power Management

Job description

You have a least 6 years of core project management experience ideally working with DC-DC power conversion projects. Your ability to motivate and inspire a project team of up to 60 dispersed locally and globally will be required for this role. Knowledge in a technical field related to Infineon products is essential. The main industry focus for products being developed and manufactured is for the computing industry. Moreover, if you have the required project management experience and you are looking for a position focused on managing teams versus managing direct reports then we have the opportunity for you!

In your new role you will:

- **Lead the project team** of up to 60 people split across the east coast, west coast, Germany, Austria
- This is more of an **internal position**, someone from the team will be facing the customers and there will be very little customer interaction
- This is not a management position and there are **no direct reports**
- **Be flexible** and manage your working day effectively as this person will be required to have meetings with the project teams split across different countries as and when necessary
- The main industry focus for these products being developed and manufactured is for the **computing industry (Dell / HP / NVIDIA, SAMSUNG)**, with strong growth currently seen in the **5G/Wifi/AI** and **Battery Powered industry segments**
- Have the experience and ability to **take a product from development stage through to manufacturing** with a strong understanding of the **project lifecycle**
- Motivate and **inspire the project team** to reach a common goal
- Effectively **manage senior stakeholders**

Profile

You have excellent communication skills and enjoy teaming with others within a large, global matrix environment. Your strong ability to command stakeholders, interact with various teams and engage with all levels in the organization will be key!

You are best equipped for this task if you have:

- At least **6 years' experience in project management** (minimum and required)
- This is not an engineering or technical management role, this is a fully fledged **project management position** (e.g., a technical leader for an IC design team is not suitable)

At a glance

Location:	Morrisville, NC (United States)
Job ID:	355386
Start date:	as soon as possible
Entry level:	5+ years
Type:	Full time
Contract:	Permanent

Job ID: **355386**
www.infineon.com/jobs

- A history of working with **DC-DC power conversion projects** would be top of the list
- **AC/DC, RF, Wireless, Mixed Signal, IC packaging, IC** Qualifications project experience are also to be considered
- Experience working with a large **global organization** that has a complex matrix
- Ability to stand your ground and make firm but critical decisions where and when necessary
- Are able to be **versatile and dynamic** in your approach as you will be dealing with a wide range of groups such as the product team, project team, customers, and stakeholders.

Top 3 Essential Requirements:

- **Project Management:** A formal PM certification (e.g., IPMA or PMI/PMP) is desired but a minimum of 6+ years of PJM experience is acceptable
- **Technical:** Knowledge in a technical field related to Infineon products: **Design, Test, Applications, Qualifications, Assembly, Packaging of IC's**. Any **silicon-based IC design** is fine e.g., RF
- **Excellent Interpersonal skills;** this person will interact with people of all levels from engineers to VPs. Must be extroverted, engaging and enthusiastic

Infineon **Power & Sensor Systems (PSS)** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world.

Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication.

– **We drive leading-edge power management, sensing and data transfer capabilities** –

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

Infineon Technologies Americas Corp. is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your on-boarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE :

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
