

## Working Student: Project Office / Sales Operations & Strategy (f/m/div)\*

### Job description

You are a team player with strong interpersonal skills? You also have the ability to work with various interfaces in a dynamic working environment? Then become part of the SMD Project Office team in Munich. The SMD Project Office supports the Power & Sensor System (PSS) division's CMO (Sales & Marketing Head) with strategy development, preparation of and participation in meetings, program management for strategic projects in the area of Sales & Marketing on division and Infineon corporate level as well as sales operations and governance facilitation. Interested? Then apply now!

In your new role you will:

- Support the planning and preparation as well as follow-up of **leadership workshops** and regular **management meetings**
- Support the **management of strategic projects** and **development initiatives** in the area of Sales & Marketing
- Derive and execute **concepts to communicate** these projects into the organization **via appropriate channels** (e.g. via intranet, presentations)
- Prepare **presentations** and **briefings** for the PSS top management
- Support **Sales Operations governance** and **processes**
- Interface with a **broad range of other functions** like the PSS Project Office, our Regional Sales teams, Marketing, and other central functions

### Profile

You are best equipped for this job if you:

- Have a **very good degree** in either **business administration, communication, a science subject, engineering**, or similar with **focus on Sales, Marketing and/or Strategy**
- Bring a high affinity for **digitalization, technology** and **market trends**
- Are a talented user of **Microsoft Excel** and **PowerPoint**
- A **networker** with an **open mind** and curious to **learn new things**
- Have **good analytical skills** and **strategic thinking**
- Speak **English fluently**, while German is a big plus

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

**– Power & Sensor Systems (PSS) drives leading-edge power management, sensing, and data transfer capabilities –**

Infineon **PSS** semiconductors are enabling intelligent power management, smart sensitivity, and fast, reliable data processing in an increasingly digitalized world. Our state-of-the-art power and connectivity devices make chargers, servers, mainboards, power tools, and lighting systems smarter, smaller, lighter, and more energy-efficient. In addition, our trusted sensors give things an intuitive sensing capability to make them contextually aware, and our RF chips support fast and reliable data communications.

*\* The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
