

Senior Expert Product Owner (f/m/div)*

Job description

Would you like to work as Product Owner at a dynamic expanding multinational company in Budapest's office, with 50 colleagues? Would you like to be an added value in the semiconductor industry for the greener and safer future? Apply for this position of Infineon's Industrial Power Control team in Budapest! Easier. Safer. Greener.

As Senior Expert Product Owner, you will be responsible for improving released products. You will work together with a global team of Product Owners, Cost Engineers and Project Managers, being in charge of driving portfolio improvement inside the organization.

In your new role you will:

- Be responsible for **product competitiveness** of semiconductor products (FE & BE) post-development;
- Develop **portfolio improvement strategy**;
- Drive important **cross-functional projects**;
- Lead local **Production Management team** in Budapest;
- Actively takeover of new **products from R&D**;
- Conduct improvement of **semiconductor products performance** and **profitability** to maximize the financial figures and quality of Business Line.

Please, send us your CV in English.

Profile

If you are determined, energetic and open for something new, have high spirit, no fear of changes and focus on solving issues, and you also like working in team, being capable of communicating with confidence in English, you have just found the right workplace.

You are working continuously on making things **better, faster**, and more **efficient**. Taking on responsibility and working independently is natural for you. With your passion and your excellent communication skills, you are able to implement improvement projects into your area of responsibility. At the same time, you remain aware of the big picture even in complex situations and take actions despite uncertain circumstances. You have strong experiences in connecting financial and technical world and managing a cross functional departments, including an excellent soft skill set in terms of people and customer management and a high degree of analytical skill to handle a high level of product complexity in an extensive manufacturing landscape.

You are best equipped for this task if you have:

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Industrial Power Control (IPC) empowers a world of unlimited energy –

Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain.

As the global leader in power semiconductors, Infineon IPC delivers leading products and solutions for smart and efficient energy generation, transmission and consumption. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever they need it.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
