

## Head of Analog Design (f/m/div)\*

### Job description

As our new Analog Design Manager you will be leading the Analog Design Team of Infineon's European IC Design Center for PSS DCDC. You will be responsible for the development of your team members, drive technical innovation, promote collaboration across a global network of departments and interact with internal and external customers. Do you have an excellent understanding of analog design and IC development flow? If you are ready to take your next career step, this position is your opportunity to join a growing, fast paced and strong design team in Villach. You will shape with us the next generation of CO2 reduction and emerging application power-management integrated circuits.

In your new job, reporting to the Chip Architect and Design Head, you will:

- **Be responsible for the Analog Design Team** of Infineon's European IC Design Center for PSS DCDC consisting of 3 teams incl. their team leaders
- **Develop the teams** to the needs of the business and the individuals according to their needs
- **Support the hiring of talents** and **dedicated experts** to extend the teams as required
- Participate in the **design of IC for power management products**
- **Cooperate with concept engineering**, digital design, verification engineering, layout, lab and test engineering
- **Drive design methodology** and innovation
- **Demonstrate clear and consistent communication** with your peers and stakeholders

### Profile

With your way of being, you inspire and encourage your intercultural team to succeed. You motivate and purposefully make use of the knowledge and experience of each team member to achieve ambitious goals. You leverage your technical skill and experience to drive methodology and innovation. You remain aware of the big picture even in complex situations and as confident networker you quickly establish strong relationships.

You are best equipped for this job if you have:

- **A university degree in Electrical Engineering** or a similar course of studies
- **Longstanding experience in analog/mixed signal design**
- **Strong knowledge about switching converters** (AC-DC and/or DC-DC)

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

**– Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities –**

Infineon **PSS** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication. [Click here](#) for more information about working at PSS with interesting employee and management insights and an overview with more #PSSDreamJobs.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3700 colleagues from over 65 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria’s southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country’s social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
