

## Systems Engineer

### Job description

We have a great opportunity for an IT professional to work within a global IT team to ensure the successful running of overall sales processes with the existing and future IT landscape. You will work closely with our Global IT and business teams in various regions around the globe, and will apply your experience with writing requirements and converting them into technical documents, which will be used by external vendors to be implemented and the business functionalities are carried forward. If you are looking to grow your career within a large, multinational organization, this may be the position for you. Apply now!

#### In your new role you will:

- Work in a **global IT team** to ensure running of overall sales process with existing and future IT landscape
- Close integration with Global IT and business team located in different time zones
- Assist business in **writing the requirements** and **convert them into technical documents**, which can be used by External Vendor to implement and ensure the business functionalities are carried forward
- Work closely with multiple **service providers** on best possible solution and prepare solution design and program the solution if need arise
- Drive and **Manage Strategic IT Projects** for Global Organization
- Assure **compliance** with Infineon business compliance guidelines

### Profile

#### You are best equipped for this task if you have:

- A **degree in Information Technology, Computer Science, Data Science** or a similar field
- At least **3 years** of professional experience in the field of **CRM** – ideally in High Tech solutions
- A proven record of working in or managing **strategic IT projects** within a global organization
- The ability to structure new and complex situations while considering dependencies and priorities and then converting them from strategy into real execution and methods
- Database and programming skills are desirable
- Excellent communication skills in English

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

*Infineon Technologies Americas Corp. is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.*

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

### **IMPORTANT NOTICE:**

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the

internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
