

Product Application Engineer

Job description

As a Product Application Engineer, you will be responsible for providing detailed product technical support and training to Tier 1 and OEM customers for Switching power supply ICs, Application specific PMICs, System Basis ICs, Linear voltage regulators, CAN and LIN transceivers.; Does this sound exciting? if so, please apply today!

In your new role you will:

- Regional technical expert focused on **automotive power supply and in-vehicle networking solutions**.
- Provide detailed product technical support and training to **Tier 1 and OEM customers for Switching power supply ICs, Application specific PMICs, System Basis ICs, Linear voltage regulators**, CAN and LIN transceivers.
- Support customers during **design reviews, worse case analysis, device selection, and system evaluations/debugging**.
- Develop and deliver technical presentations to customers to support sales teams in the qualification of new opportunities.
- Part of a **global expert team developing new concepts, innovations and new technologies influencing** our product and application roadmaps.
- Establish and develop trusted relationships with **key customer engineering personnel and decision-makers**.
- Engage with global product lines and regional marketing on strategies and best practices impacting our strategic direction.

Profile

You are best equipped for this task if you have:

- B.S. Electrical Engineering, MSEE Preferred.
- 10+ combined years of experience as a **semiconductor Application Engineer or automotive electronic system design engineer**, preferably with some experience serving automotive electronics.
- Strong technical knowledge and design experience on a system level.
- Broad understanding of power supplies including tradeoffs of **linear vs switching and different DC-DC topologies**.
- Utilizes new and innovative methods to confront and solve problems.
- Thermal design, modeling, simulation and analysis experience, and familiarity with functional safety are beneficial.

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

Infineon Technologies Americas Corp. is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE:

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated

against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
