

Director of Corporate Strategy

Job description

The Director of Corporate Strategy identifies and evaluates market segments, products, and business models that drive Infineon's growth in current, emerging, and new opportunity areas. You will leverage your prior experience in management consulting / corporate strategy to influence the strategic direction for Infineon. You will help drive business cases and strategic recommendations for our core and growth businesses and deliver data-driven, insightful recommendations to Infineon's management team.

In your new role you will:

- Contribute and actively participate in defining, analyzing, synthesizing and formulating **strategic insights** that translate into clear strategic options and actionable strategies for Infineon's products, applications, organization and business
- Lead key strategic projects that have **enterprise- wide implications** on the various business segments and their own unique strategies
- Drive continuous engagement with the executive leadership team on **strategy review** and development
- Demonstrable leadership and influencing skills in a team setting, including **extended teams** where members are often not direct reports
- Demonstrate Intellectual **agility** and the ability to simplify and clearly communicate complex concepts
- Apply structured **problem solving** and deliver data-driven, synthesized insights to support actionable strategy and recommendations
- Collaborate with and influence senior executives to build consensus and secure commitment for **priority initiatives**
- Apply Superior strategic and analytical skills with ability to draw **key insights** and develop clear recommendations
- Simultaneously manage **multiple strategy initiatives**
- Deliver analytically rigorous and data-driven insights to support **actionable strategic** recommendations, business prioritization, and enterprise strategy communications
- Work collaboratively and effectively across a **global matrix** organization to build alignment and ensure successful execution
- Have a broad exposure across Infineon's divisions and business lines, explore synergistic connections, and proactively partner with **cross functional** leadership and stakeholders to define, drive and execute on strategic topics
- Have a strong pulse on the industry, **competitive intelligence** and macro environment trends in areas pertaining to automotive, industrial and consumer segments, with a focus on maximizing opportunities for Infineon

Profile

You are best equipped for this task if you have:

- **Degree** in Electrical Engineering/Physics/Computer Science (MBA is a plus). This is not a technical role, but an understanding of the technology is essential in formulating analysis, forecasting and strategy.
- Minimum of **5-8 years of** progressive experience in leadership and strategic planning experience in strategy formulation / product management in the semiconductor / technology related industry experience industry or have experience at the project manager level in a top-tier consultancy firm.
- Demonstrable acumen in **modeling, forecasting** and synthesizing data. Ability to translate data and insights into powerful and crisp messages targeting multiple audiences.
- Experience in leading and driving high stakes **strategic initiatives** across the organization for successful outcomes at regional and global levels
- Managed services offerings and/or subscription-based business models and solutions **go-to-market**
- Excellent skills in **interpersonal communication**, coordination, influence and persuasion
- Experience presenting to senior executive audiences, comfortable leading interaction with **executive level** stake holders
- The ability and desire to take on **broad strategic operational** assignments as part of future development
- Knowledge of Infineon's markets, **competitors** and products and knowledge of the semiconductor industry and ecosystem are a plus.
- Experience being an excellent developer of high-powered strategy teams and driving strategy insights and **roadmaps** while managing and delivering consistently on project scope and timeline
- A detail-oriented self-starter, comfortable with rolling up their sleeves and able to work in a fast-paced environment, and are a strong **team player**.

Benefits

- **San Jose, CA:** Medical, Dental & Vision Plans; Flexible Reimbursement Accounts (FSAs); Industry leading 401k Employer Contribution/Match; Company Performance Bonus; Holiday Pay & Paid Time Off (PTO); Flexible Working Conditions, Part-time Options; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Wide range of Training Offers & Career Development Planning; Coaching, Mentoring, Networking Possibilities; International assignments; Basic Life & Dependent Life Insurance; Paid Sick Leave, Accidental Death & Disability Insurance (AD&D) ; Short-term & Long-term Disability ; Employee Assistance Program (EAP) ; Health Promotion Programs ; Reduced Price for Public Transportation

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

Cypress Semiconductor Corporation is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents .

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.
