

## Senior Project Leader Integrated Sensors (f/m/div)\*

### Job description

You have taken your first steps in project management, and are eager to proactively drive new technological trends? Taking responsibility and the ability to manage projects as well as hands on attitude are part of your personal profile? If you are looking for an open-minded, collaborative corporate and team culture, Infineon is the place to be. Seize your chance and apply now! Join the Infineon Family as our new Senior Project Leader for Sense and Control in Villach!

Time-to-market and an outstanding development process are what set us apart from our competitors. As Senior Project Leader for Sense and Control, you will directly influence both of these aspects. You will be responsible for preparing and tracking the scheduling and cost planning of medium size product, technology and package development projects for magnetic sensors and for assuring its progress and success.

In your new role you will:

- **Manage medium size product development projects / sub projects** with strong connection to Frontend technologies and Backend processes
- Be fully **responsible for all operational decisions** in the project and for the successful achievement of all project targets (time, quality, cost and budget)
- **Manage and control the entire project life-cycle** as main contact person for all questions regarding the project.
- **Organize the activities and resources** needed for the project to ensure timely release of each milestone.
- Conduct a **forward-looking risk management** In close cooperation with your stakeholders you identify possible mitigation measures and/or backup scenarios.
- Continuously **focus on project quality, assess progress** and **ensure that goals are met** even in the face of challenges

This position is part of the **Project Management Career Path**. It provides an attractive career opportunity for employees who focus on managing projects and functional leadership of project team members. You want to learn more about the role as a Project Manager? Check out our profile story!

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

**– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –**

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon ATV is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.
