

Internship - Software (Full Stack) Developer

Job description

Develop web system solution with advance analytics feature. The project objectives is to simplify complex process flow and create system automation with following scope of work: - System & data integration - Extract-Transform-Load with file & SQL databases - Front-end UI design & Back-end Server programming - Microservice Architecture development - Interactive Dashboard & Visualization creation.

In your new role you will:

- Participate in **full software development lifecycle**.
- Collaborate with development teams to produce **web-based applications**.
- Write clean, scalable codes using **.NET programming languages**.
- **Test and deploy applications and systems**
- Produce **technical documentation**

Internship learning outcomes:

- Mastering **software technical skills** (E.g. design pattern, large scale software distribution)
- Perfecting **Interpersonal Skills** (Soft Skills) by **connect and communicate in diversified working environment (EU/APAC)**
- Gain **domain knowledge in semiconductor industry** (Design and manufacturing of integrated circuits)

Profile

You are best equipped for this task if you have:

- Degree in **Computer Science/Information Technology** or related discipline
- Knowledge or experience in **web development** (e.g. .NET Core, C#, HTML5, CSS3, JavaScript, JQuery)
- Knowledge of **API development** as well as **design patterns / architectures** such as **microservices**
- Familiar with **SQL Server**, or any **RDBMS**
- Understanding of **Agile methodologies**
- Strong sense of **responsibility, high self-management** and **project execution skills**

Why Us

At a glance

Location: **(Singapore)**
Job ID: **358643**
Start date: **Sep 01, 2022**

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

In accordance with the requirements set by the Singaporean Government, Infineon Technologies Asia Pacific Pte Ltd ("Infineon") can only allow individuals who are (a) fully vaccinated, (b) certified to be medically ineligible for a vaccine or (c) have recovered from COVID-19 within a prescribed period, onto company premises. Therefore, Infineon requires all new employees, as well as contractors and business partners, to be fully vaccinated against COVID-19. "Fully vaccinated" means individuals have completed the full regime of an approved COVID-19 Vaccine as listed under the World Health Organization (WHO) Emergency Use Listing (EUL) including the respective post-vaccination period to ensure the vaccine has become full effective. Anyone who is unable to be vaccinated due to an approved and/or recognised exemption condition may apply for special consideration.
