

Senior Digital Subsystem Project Manager (f/m/div)*

Job description

Infineon's work has a huge impact on people's daily lives and on solutions for the future. As a Project Manager, you are a manager, a leader, and an expert at the same time. Are you prepared to take the next step in your career and be part of our state-of-the-art Compute and ADAS Systems team in Bristol? Then, join us as a Senior Digital Subsystem Project Manager and be part of the #1 semiconductor partner in the fast-changing automotive world!

As a Senior Digital Subsystem Project Manager, you will deal with interesting projects and products that offer a lot of scope for action, both from a management and a technical perspective. More specifically, you will be responsible for the development of a digital subsystem that includes multiple in-house IP developments, with a significant impact on business success, to be used in multiple automotive platform products.

In your new role you will:

- **Have full responsibility for project execution**, including project scheduling, risk planning, project cost management, and fulfillment of project plan;
- Be in charge of the **management, tracking, and reporting of day-to-day project activities**;
- Be responsible for the management of **interfaces to other departments and organizations**;
- Take care of **third-party IP developments** by external companies;
- Be the **interface to senior management**.

Profile

You highly enjoy communication and social interaction, especially to motivate team members and stakeholders. You are talented in coordinating, organizing, and controlling project tasks while always having the big picture in mind. Furthermore, you are an active listener who is reliable and open to divergent opinions but also solves conflicts in a productive manner.

You are best equipped for this task if you have:

- A **degree in Electronic Engineering** or similar field of studies;
- **At least 10 years** of working experience preferably **within the semiconductor industry**;
- **At least 6 years of experience as a Project Manager** – a recognized certification in Project Management is ideal;
- Experience with **complex international projects**;

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon ATV is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.

Automotive Microcontroller: We make cars clean, safe and smart

As a leading automotive microcontroller vendor, the Infineon business line **Automotive Microcontroller** (ATV MC) offers the industry's most comprehensive vehicle microcontroller portfolio and complements it with software. We serve automotive key applications, such as powertrain, advanced driver assist, chassis, body, instrument cluster and infotainment. We also address high-performance dependable computing, real-time domain and zone control, smart sensing and affordable artificial intelligence (AI) applications enabling the next stages of automated driving as well as higher levels of car connectivity, digitalization and security.

Being at the core of this transformation, ATV MC contributes to shape the future of mobility enabling clean, safe and smart cars. So join us to create a better future together.
