

Working Student: MLOps (f/m/div)*

Job description

“Machine Learning” is not a buzzword anymore. Numerous real-world applications in the market are developed using Machine Learning. At Infineon, we leverage machine learning to make our sensors smarter and more aware. If this interests you and you are looking to gain hands-on experience in the field of artificial intelligence and machine learning, apply now!

“Machine Learning” is not a buzzword anymore. Numerous real-world applications in the market are developed using Machine Learning. At Infineon, we leverage machine learning to make our sensors smarter and more aware. If this interests you and you are looking to gain hands-on experience in the field of artificial intelligence and machine learning, apply now!

In your new role you will be responsible for:

- Evaluation and implementation of **MLOps pipelines**
- Documentation and testing of our **AI Infrastructure**
- Presentation and demonstration of the results to **relevant teams**
- Working in agile SCRUM **teams for the development of tools & prototypes**

Profile

You are best equipped for this task if you:

- **Are studying Informatics, Computer Science, Electrical/Electronics Engineering** or similar background
- Have **programming experience** with a high-level programming language e.g. Python
- Are **working independently and proactively** - and enjoy working in a collaborative team
- Are **curious and willing to deal with complex problems**
- Have a good command of **English language**. German is a plus

Contact

Ayline Föll

Recruiter

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript (not older than 6 months)
- High school report

Additionally, the following requisites apply for working students:

- **You must be enrolled and not on academic leave:** Proper students (according to German law) are warmly welcome!
- **You should live close to the site:** More than 150 km distance is not recommended for a working student job due to the travel

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

- **Power & Sensor Systems (PSS)** drives leading-edge power management, sensing, and data transfer capabilities –

Infineon PSS semiconductors are enabling intelligent power management, smart sensitivity, and fast, reliable data processing in an increasingly digitalized world. Our state-of-the-art power and connectivity devices make chargers, servers, mainboards, power tools, and lighting systems smarter, smaller, lighter, and more energy-efficient. In addition, our trusted sensors give things an intuitive sensing capability to make them contextually aware, and our RF chips support fast and reliable data communications.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
