

Senior Marketing Manager for Product Management (f/m/div)*

Job description

As a part of the Connected Secure Systems division you have a clear Mission: Position the security solutions of IoT Security and become part of shaping Infineon's Future as a member of the IoT security Marketing Team. Therefore, you get an understanding for end customers' needs and gain insights how to approach these customers. You would like to play a global role in a Product Marketing and Management team striving for outstanding quality of security solutions and services? You would like to be responsible for Infineon's Worldwide product management of embedded security solutions for selected IoT market segments? Take the chance for a change and apply now!

In your new role you will:

- Manage the business operations as well as driving the **G2M for a specific portfolio of embedded security solutions (device and associated services) for selected IoT market segments**
- **Drive, coordinate and contribute** to the development and execution of G2M and market introduction plans, as well as channel strategy
- Define and support our **design-in/win targets** in order to maintain our leading market position
- Manage product portfolio through the lifecycle, **own the pricing strategy, drive market and competitor analysis and draw conclusions** for own positioning and further development of the product portfolio

Profile

You find useful ways to reach set targets and you always keep the bigger picture in mind. With your foresight, you work conscientiously on making things better, faster, and more efficient. You are personally committed to the customer's concerns, award them a high priority and you concentrate your knowledge on producing results with real added value. You have excellent communications and presentation skills across different levels of hierarchies and various stakeholders and you also have the ability to drive, coordinate and structure cross-functional and cross-regional activities and business partner.

You are best equipped for those tasks if you have:

- A degree in **Business Administration, Economics, Electronic/Electrical Engineering** or similar
- At least **6 years of relevant work experience in creating marketing solutions and developing product go-to-market material for focus applications, ideally in a high-tech or semiconductor industry environment**

At a glance

Location: **Munich (Germany)**

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

– Connected Secure Systems (CSS) is at the heart of the IoT –

The **CSS** division provides end-to-end systems for a connected, secured world – building on trusted, game-changing microcontrollers as well as wireless and security solutions. CSS delivers microcontrollers plus Wi-Fi, Bluetooth® and combined connectivity solutions (known as connectivity combos) along with hardware-based security technologies to power the broadest application spectrum spanning consumer electronics, IoT devices, cloud security, IT equipment, home appliances, connected cars, credit and debit cards, electronic passports, ID cards, and more. The division is at the forefront of computing, wireless connectivity, and trusted technologies that are helping to securely connect the networked systems of today and tomorrow.
