

## Senior Specialist Supply Chain Planner (f/m/div)\*

### Job description

Do you want to shape the future towards safer, greener and autonomous driving cars with Infineon's products? Do you enjoy the challenge of working in a leading-edge technology environment? Do you want to contribute to critical decisions of our company and constantly look for improvements to work more accurately and reliably? Then this opportunity as Specialist Supply Chain Planning could just be the right fit for you! We drive the electrification and automation of cars by developing and manufacturing world-class power semiconductors. Do not miss this chance and apply now!

In your new role you will:

- **Manage tight supply and customer allocation** in alignment with Product Marketing and other Stakeholders like CLM and Sales
- Optimize Demand and Supply Plans of a specific product portfolio; **you are responsible for the sales plan for the upcoming 6 months**
- Ensure the production and delivery ability of your product portfolio
- **Support in developing and presenting decision templates** and reports for management reviews
- Contribute to **reach production milestones** in a timely manner, and ensure Infineon's ability to deliver to our customers

### Profile

You strive for high quality results. You take matters into your own hands and are able to unite all parties involved. Thanks to your strong analytical and communication skills, you successfully handle complex topics and communicate them clearly to the different stakeholders & top management. You remain aware of the big picture even in complex situations and take decisions despite uncertain circumstances.

You are best equipped for this task if you:

- Have a **degree in engineering, business administration with the focus on Supply Chain or Production Planning**
- Have **at least 1 to 3 years of working experience** in Supply Chain related jobs
- Can adapt to new situations and are motivated to go the extra mile
- Have **team spirit**, and are creative and respectful when working with others
- Are willing to **work independently and learn coordinate multiple parties**; basic experience in project management is an advantage
- Can handle **decision making under time pressure** in allocation times
- Have **IT affinity** and the willingness to become acquainted with different IT tools

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

**– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –**

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon **ATV** is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.
