

Staff Engineer Analog/Mixed-Signal Design (f/m/div)

★

Job description

Are you an expert in analog/mixed signals design with special focus on power management and GaN HEMT applications, eager to take the next career step within a highly professional, international team? Here is your chance: as Staff Analog/Mixed-Signal Design Engineer you will take over responsibility for the concept, design and verification of analog/mixed-signal blocks for power management ICs, from product definition till mass production. This is the perfect position for someone who likes to work in an innovative working environment and is firmly focused on achieving high quality results. Your future career awaits you – right here at Infineon Austria!

In your new job you will:

- **Develop analog/mixed-signal circuit concepts**
- **Design & verify analog/mixed-signal ICs** from product definition till mass production with focus on GaN and GaN drivers for power applications
- **Closely cooperate** with product definition, layout-, lab-, test- and quality engineers
- **Support IC validation**

Profile

You are best equipped for this task if you have:

- **A university/university of applied sciences degree in Electrical Engineering**, Microelectronics or comparable
- **3+ years of experience in analog/mixed-signal IC design** and verification in the area of power management
- **Considerable block-level IC design experience** and good understanding of analog /mixed-signal design flows (e.g. Cadence, Synopsys, etc.)
- **Good top-level IC design** and integration experience is appreciated
- **Comprehensive knowledge** of the **entire IC development flow**
- **Understanding of high voltage CMOS** and/or BCD technologies and/or knowledge in the area of power applications (e.g. DC-DC converters, inverters, etc.) will be an advantage
- Good knowledge of **semiconductor physics**
- **Fluent English skills**

At a glance

Location: **Villach (Austria)**
Job ID: **360784**
Start date: **Oct 01, 2022**
Entry level: **3-5 years**
Type: **Full time**
Contract: **Permanent**

We offer competitive salaries and additional benefits based on your performance, experience and qualification. This position is subject to the collective agreement for workers and employees in the electrical and electronics industry, employment group G (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>). A higher payment is negotiable depending on your expertise and skills.

Benefits

- **Villach:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; Child care in Villach & Klagenfurt; On-site social counselling and works doctor; Health promotion programs; On-site canteen; Private insurance offers; Wage payment in case of sick leave; Corporate pension benefits; Flexible transition into retirement; Performance bonus; Accessibility, access for wheelchairs

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

– Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities –

Infineon **PSS** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication. [Click here](#) for more information about working at PSS with interesting employee and management insights and an overview with more #PSSDreamJobs.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3900 colleagues from over 70 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria’s southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country’s social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
