

International Graduate Program: Product Development & Project Management (f/m/div)*

Job description

Joining our International Graduate Program (IGP) will give you the full insight into Infineon: over the course of 18 months, you will have at least three different assignments – one of them abroad. You will meet the global IGP community in global, regional and virtual conferences. You will get feedback after each assignment, a mentor who gives career advice and a permanent contract from the start. Do you have the potential to strive for a big future? Are you passionate for both, to manage diverse projects all over the world and to take over technical tasks for realization of Low Power MOSFET Products? As a Project Manager & Product Development Engineer for Infineon's DCDC organization, you have the opportunity to do exactly that! Sounds interesting? Then take the chance to be part of a highly motivated team!

In your IGP period you will:

- Work in different functional areas during the first 18 months, such as **Product Development, Technical Marketing and Research & Development**
- Plan your tasks and deliverables together with your **dedicated mentor**
- Take an **active role in the IGP network** by attending program events as well as **specific IGP trainings**

In your target position (after the IGP) you will:

- Lead **product development projects** for realizing a MOSFET device portfolio in securing timing, budget and quality
- Conduct a forward-looking **risk management** to identify possible mitigation measures and/or backup scenarios
- **Collaborate** with different stakeholders (technology, packaging, marketing, quality management, etc.)
- Form, guide and motivate **diverse, cross-functional project teams**
- Contribute to the **development of new semiconductor technologies and packages**
- Setup **device characterization** and analyze measured data

Profile

You are open to new ideas and receptive to other ways of thinking or working and have the passion and the courage to develop new and creative ideas. As a true team player, you are aware of cultural differences, cooperate across boundaries and appreciate the contributions of other people. You demonstrate strong communication skills and know

At a glance

Location: **Villach (Austria)**
Job ID: **360845**
Start date: **Jan 01, 2023**

Talent Attraction Manager

how to establish lasting relationships and networks with colleagues and clients. With your structured working style, you are able to demonstrate high quality standards for yourself and other people.

You are best equipped for this task if you have:

- Recently graduated from **University / University of Applied Science** holding a **Degree** in **Electrical Engineering, System Engineering, Power Electronics, Material Science, Applied Physics** or comparable with **main focus** on **Device Physics** (<2 years of work experience)
- Knowledge in **device- & semiconductor physics**
- Ideally first experiences in the **semiconductor business**
- A passion to work in **international and very diverse teams**
- **Networking capabilities** as well as **analytical skills** and a **strategic way of thinking**
- **Fluent English skills**, German skills or the willingness to learn are of advantage

And you fully agree with these statements:

- I am an **ambitious and open-minded** person who loves to get to know new people and learn about new topics
- When I think about moving **to another country for at least three months**, I want to start packing my bags
- I like to **work in teams that are very diverse and in which everyone speaks English**
- I can't **wait to present a concept to teams and managers** – and I don't mind doing it in English
- My friends describe me as “ **highly independent and self-motivated team player**”

If this is you, then we want to make it easy for you to apply: All we need is your **CV and your relevant certificates**, such as your final university degree or your most recent university transcripts. Tell us more about your motivation for applying in a short **cover letter**. Convince us with your personality, special skills and experiences.

A **Recruiting Day** for all pre-selected candidates will take place at **on site in Villach on October 5th 2022**, so mark this date already in your calendar.

We offer competitive salaries and additional benefits based on your performance, experience and qualification. This position is subject to the collective agreement for workers and employees in the electrical and electronics industry, employment group F (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>). A higher payment is negotiable depending on your expertise and skills.

Benefits

- **Villach:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; Child care in Villach & Klagenfurt; On-site social counselling and works doctor; Health promotion programs; On-site canteen; Private insurance offers; Wage payment in case of sick leave; Corporate pension benefits; Flexible transition into retirement; Performance bonus; Accessibility, access for wheelchairs

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better

future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

– Power & Sensor Systems (PSS) drives leading-edge power management, sensing and data transfer capabilities –

Infineon **PSS** semiconductors play a vital role in enabling intelligent power management, smart sensitivity as well as fast and reliable data processing in an increasingly digitalized world. Our leading-edge power devices make chargers, adapters, power tools and lighting systems smarter, smaller, lighter and more energy-efficient. Our trusted sensors increase the context sensitivity of “things” and systems such as HMI, and our RF chips power fast and reliable data communication.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3500 colleagues from over 60 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria’s southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country’s social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a “small town”, offering everyday living at affordable prices in an outstanding setting.
