

TEST OPERATOR

Job description

In your new role you will:

- Perform a variety of electronic test on various **semiconductor** devices, hybrids and custom circuits to ensure unit functions according to specifications.
- Set up and **operate** department's automatic testing equipment to ensure various semiconductor/hybrid devices meet specifications by performing the following duties.

Profile

You are best equipped for this task if you have:

- Set up, conduct and interpret results from a variety of automatic testing **equipment**, manual electronic and environmental tests on various semiconductor devices, hybrids and custom circuits.
- Test equipment includes Tesec and Eagle Systems (**autotesting**), curve tracers, voltmeters, oscilloscopes and related equipment.
- Ability to Read **test** schedule, performance specifications to determine testing procedure and equipment used.
- Set up and **operate** various automatic testing equipment to insure product meets specification. Product may vary from simple to more complex semiconductor/hybrid products.
- Operation instructions for automatic test equipment are the same or quite similar. All automatic testing equipment provides **simple** test results.
- Compare test results with specifications and alert group leader or appropriate personnel of test result deviations and/or **defective** results.
- Fill out lot travelers and move product through company **MES** system.

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

IR HiRel Products Inc. is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex (including pregnancy, childbirth, or related medical conditions), gender identity, national origin, ancestry, citizenship, age, physical or mental disability, legally protected medical condition, family care status, military or veteran status, marital status, domestic partner status, sexual orientation, or any other basis protected by local, state, or federal laws. Applicants with questions about access or requiring a reasonable accommodation for any part of the application or hiring process should contact the Talent Network by phone at (408) 503-2194.

Employment at Infineon is contingent upon proof of your legal right to work in the United States under applicable law, verification of satisfactory references and successful completion of a background check and drug test, and signing all your onboarding documents.

In some instances, if applicable, U.S. export control laws require that Infineon obtain a U.S. government export license prior to releasing technologies to certain persons. This offer is contingent upon Infineon's ability to satisfy these export control laws as related to your employment and anticipated job activities. The decision whether or not to submit and/or pursue an export license to satisfy this contingency, if applicable, shall be at Infineon's sole discretion.

IMPORTANT NOTICE:

Infineon is requiring all new U.S. employees and contractors to be fully vaccinated against COVID-19. Full vaccination is defined as two weeks after both doses of a two-dose vaccine or two weeks since a single-dose vaccine has been administered. Anyone unable to be vaccinated, either because of a sincerely held religious belief or a medical condition or disability that prevents them from being vaccinated, can request a reasonable accommodation.

Infineon Technologies takes data privacy and identity theft very seriously. As such, we do not request personally-identifiable information (PII) from applicants over the internet or electronically. Please kindly refrain from disclosing your PII electronically during the application process or to unauthorized websites that may purport to be Infineon or any of our affiliates.
