

## Product Support (f/m/div)\*

### Job description

You finished your education and want to bring in your knowledge to support different departments in an international company? You love to help others and also like to work across borders? We have the best opportunity for you! Apply now to become part of our team at Infineon in Villach!

As Specialist Product Support you act as an interface between development- and production facilities for multiple Infineon sites around the globe. In addition you will be responsible for moderation support of our FMEA process within the organization.

In your new role you will:

- **Logistically support** the product development department in Villach
- Provide assistance to **transfer and change projects**
- Start and **control development wafer production** at Infineon facilities such as Villach, Regensburg, Dresden and Kulim
- Kick start and **manage development sample production** at Infineon facilities such as Melaka, Batam Island, Singapore and different subcons
- Be responsible for **sample management** (e.g. engineering and qualification samples)
- Request and **maintain master data** on Infineon internal tools and software platforms
- **Support** the **project teams** with moderation of the required FMEA's

### Profile

You gather information quickly, evaluate it from different perspectives and uncover hidden correlations. You communicate openly, clearly and coherently and demonstrate high quality standards for yourself and other people.

You are best equipped for this task if you have:

- Successfully finished a **technical or commercial education** (e.g. HTL, HAK) or a **University / FH degree** (Bachelor)
- Excellent **MS-Office skills**
- Made first steps in **moderation techniques**
- A high degree of **problem solving skills**
- A well **structured way of working** and a **pro-active and accurate working style**
- The ability to work as a **team player**
- Good **communication skills**

## Why Us

**Part of your life. Part of tomorrow.**

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

**– Automotive (ATV) shapes the future of mobility with microelectronics enabling clean, safe, and smart cars –**

Our semiconductors are essential for supporting the automotive megatrends: electromobility, automated driving, connectivity, and advanced security. They link the real and the digital world, driving the ever-advancing pace of automotive digitalization. Infineon **ATV** is the number one semiconductor partner in the fast-changing automotive world, based on our system knowledge and our passion for innovation and quality.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3700 colleagues from over 65 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
