

Specialist Product Support, Configuration- and Change Management for Automotive Division (f/m/div)*

Job description

Do you have a structured, conscientious and precise way of working? In addition, practical and good communication comes easily to you? Then apply to us as a Specialist Product Support (PRS), Configuration and Change Management (CCM) and make an active contribution to shaping the future within our automotive product line.

In your new role you will:

- **Logistically support the product development department** in Munich
- Provide support for **transfer and change projects**
- **Start and control development wafer production at Infineon facilities** such as Villach, Regensburg, Dresden and Kulim
- **Start and control development sample production** at Infineon facilities such as Melaka, Batam Island and Singapore
- **Be responsible for sample management** (engineering, qualification and PCN samples)
- **Create and maintain master data** on Infineon internal tools and software platforms
- **Ensure** transparency, evidence tracking and conscious decision making over changes in CCB (Change Control Board)
- **Support the creation, reviews and release of milestone documentation**, provide the necessary reports on progress to project team and represent all CCM topics in all relevant project Audits and Assessments

Profile

You strive for continuous improvement and feel responsible for and contribute to the team success. You are personally committed to the customer's concerns, award them a high priority and focus your efforts on finding solutions that offer added value for both sides. You are able to quickly establish a successful cooperation and recognize and use different areas of expertise and skills of the team members.

You are best equipped for this task if you have:

- A technical or commercial degree such as **Business Informatics, Computer Science, Electronical Engineering** or similar
- First relevant **working experience**
