

Manager Procurement Engineering

Job description

Do you envision yourself to be part of the team which increases Infineon's procurement power to the best possible effect, secure supply and foster Infineon's leading position, and continuously looking for innovative solutions in close collaboration with our suppliers? If you have a strategic mindset and attention to details, then join us to drive material & equipment cost to optimization and ensure supply and delivery targets are achieved. Sounds like a perfect opportunity to you? We look forward to your application soon!

In your new role you will:

- **Leads Design for Sourcing initiatives** for assigned category
- **Key member in Package development projects**, Cost Per Piece (CPP) accountability & Project schedule (Suppliers) – On Time & On Target
- **Transfer of supplier know how** into R&D, synergize Infineon R&D roadmaps with supplier roadmaps
- **Supplier market & demand analysis** and identification / analysis of potential suppliers
- Responsible for **project initial inquiries** and **budgetary quotes**
- Responsible for **cross-site concept savings projects** execution
- **Analysis of material cost structure** (should cost, best can do, value analysis) / database for cost break down
- **Drive standardization in R&D** (also for equipment) and consideration of Material-Toolkit
- Development of **supplier technology, process** and **material landscape**

Profile

You are very structured and as a real team player you are able to quickly establish a successful cooperation within an international and culturally diverse environment. It is easy for you to push ideas to their full implementation and application. You like to work conscientiously on making things better, and it is easy for you to find solutions in complex environments. Moreover, you recognize opportunities and have a good sense for ideas with business added value.

You are best equipped for this task if you have:

- Bachelor's Degree / Master's Degree in Business Administration / Engineer with **at least 8 years** of work experience in a combination of **procurement / Design for Sourcing** related tasks, preferably within the **Semiconductor industry**

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

In accordance with the requirements set by the Singaporean Government, Infineon Technologies Asia Pacific Pte Ltd ("Infineon") can only allow individuals who are (a) fully vaccinated, (b) certified to be medically ineligible for a vaccine or (c) have recovered from COVID-19 within a prescribed period, onto company premises. Therefore, Infineon requires all new employees, as well as contractors and business partners, to be fully vaccinated against COVID-19. "Fully vaccinated" means individuals have completed the full regime of an approved COVID-19 Vaccine as listed under the World Health Organization (WHO) Emergency Use Listing (EUL) including the respective post-vaccination period to ensure the vaccine has become full effective. Anyone who is unable to be vaccinated due to an approved and/or recognised exemption condition may apply for special consideration.
