

Senior Engineer Projects (f/m/div*)

Job description

Are you striving to work in an international environment? Moreover, you are driven to make things happen? At Infineon in Villach you are able to fulfill those dreams! You will get the chance to actively use your leadership skills to manage local team members and external partners in order to help team members to maneuver through the challenges of leaving behind their established solutions when moving to a globally harmonized process & system! This is your chance to upgrade your career! Apply now to join Infineon in Villach!

In your new role you will:

- **Manage local team members** and **local external partners** (5-20 people per roll-out site) and **provide strong leadership**
- Ensure the **completion of project milestones** at the defined points in time, including resource planning and provide **regular status reporting**
- Align and **clarify interfaces** to other systems & processes, while driving and aligning solutions on a local and global level
- Ensure **participation in several test phases, go-live preparation** and **sign off User Acceptance Test** for Maintenance on the respective site
- Ensuring **provision of data for uploads, data verification, and reconciliation**
- **Identify required change management activities** (including specific training needs, support in the organization of trainings, and conduction of end user trainings)
- **Perform escalations of critical issues** within the oneSAP program organization that potentially affect the project timeline

Profile

You are best equipped for this task if you have:

- A **degree in Business, Engineering, Information Technology**, a related field or alternatively extensive experience in Plant Maintenance
- Relevant **professional experience** in **managing projects** of high complexity, ideally in a global and/or Plant Maintenance environment
- Great **people leadership skills** especially in a changing environment
- **SAP experience**, especially with the SAP PM context
- Excellent **English communication skills** – German language proficiency is a plus
- The **willingness to travel**, including extensive business trips or assignments to respective roll-out sites

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **Frontend (FE)** cluster offers a broad range of manufacturing competence specialized in high-quality logic products. The portfolio represents Power, Bipolar, Sensor, Passive and Diode technologies as well as CMOS, RF-CMOS and embedded flash technologies. The manufacturing sites in Dresden, Kulim, Regensburg and Villach are committed to Operational Excellence with strong customer focus.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with more than 3700 colleagues from over 65 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Living in Austria has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach itself benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
