

Senior Manager Financial Controlling (f/m/div)*

Job description

You love to generate value with your analytical skills and your financial business acumen? You want to work in multi-cultural and cross-functional teams, and are hands-on? Do you want to become the financial co-pilot of a Product Line Head and actively seek to improve growth and profitability? Here is your chance: we have a great job opportunity as Senior Financial Controller to join the global Gate Driver Product Line. Together we focus on profitable growth of technologies which are key to decarbonization and an energy efficient future.

As Senior Manager Financial Controlling you will ensure that Infineon makes the right financial decisions. You will initiate and drive business discussions based on your financial analyses and work directly together with the Product Line management team. Your job will also include the great opportunity of business travels to Los Angeles, California, where the Marketing team of your Product Line is located.

More precisely, in your new job you will:

- **Be the finance business partner to the Product Line leadership** and be a member of the Product Line (PL) Management team.
- **Initiate and drive business discussions** based on financial analysis and **act as sparring partner** for all product line functions (e.g. pricing, portfolio management, cost improvements)
- **Manage the forecasting and budgeting activities** for the product line including strategic 5-year plans as well as operative quarterly forecasts for revenue and margin
- **Compile, challenge and monitor business cases** as well as financial scenarios that educate business decisions (e.g. allocation of R&D resources, investment decisions)

Profile

You are self-motivated, flexible and have the capability to independently drive business partnerships. As master juggler working on multiple topics at a time, you are focused on details while finding efficient ways to distill the key messages for the executive level. Your excellent interpersonal and communication skills lead to effective collaboration across different locations, cultures and time zones. Working in a high growth and fast paced collaborative team while representing the highest level of integrity and respect for others is a matter of course to you.

You are best equipped for this task if you have:

Contact

Melanie Happerger, MSc
Talent Attraction Manager

- **A university degree in Finance, Business Administration, Economics, or a highly analytical field** (e.g. Engineering, Maths or Computer Science) or equivalent with a passion for technology
- **5+ years of experience in positions requiring financial analysis and reporting ideally in high-tech industries** (e.g. telecommunication, mobile communication, semiconductor, software), ideally with large manufacturing landscape
- **Strong analytical and financial acumen** including ability to absorb information quickly, evaluate data under different perspectives and understand correlation
- **Ability to decide under uncertainty** knowing the error bar
- **Profound understanding of MS Excel** (data cubes, Pivot tables)
- **Hands-on experience in creating visualizations of (financial) data**, e.g. with Tableau
- **Demonstrated data analytics skills** are highly preferred (i.e. Power BI, R, or Python)

We offer competitive salaries and additional benefits based on your performance, experience and qualification. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group I (<https://www.feei.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2022.pdf>). The monthly salary is paid 14 times p.a. We offer a higher compensation depending on your expertise and skills.

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

Industrial Power Control (IPC) empowers a world of unlimited energy. Power semiconductors play a crucial role in increasing efficiency and reducing energy losses along the whole energy conversion chain. As the global leader in power semiconductors, Infineon IPC delivers leading products and solutions for smart and efficient energy generation, transmission and consumption. We strive to make this planet a greener place where sufficient energy is accessible to everyone – wherever and whenever they need it.

At **Infineon in Villach** you shape the technologies of tomorrow and work in an international environment with colleagues from more than 60 nations. Your personal contribution will be valued and appreciated as the cornerstones of our success. And all that in beautiful surroundings which guarantee a high quality of life.

The **City of Villach** is located in the center of Carinthia, Austria's southernmost province, in close proximity to the Italian and Slovenian border. Due to its particular geographic location and the outstanding natural beauty of the region, Villach and the whole province of Carinthia have for generations been popular holiday destinations for people

from all over the world. Living in Austria also has many social, health-care-related and economic perks. The country's social and health care system is among the best in the world and for decades numerous international surveys have singled out Austria as a particularly safe and wealthy country with a high quality of life. Villach benefits from its status as a "small town", offering everyday living at affordable prices in an outstanding setting.
