

Specialist Global Sample Manager (f/m/div)*

Job description

You want to path the way for new products into the market? You would love to have the overview of several go-to-market activities for the whole product portfolio of the automotive division at Infineon? Then this is your chance! As Specialist Global Sample Manager, you are responsible for placing the samples of our products at the disposal of our customers. You will collaborate with colleagues from Sales, Marketing and Project Management to provide samples all over the globe. Sounds good? Then join our international Team and apply now!

In your new role you will:

- Contribute to provide our **largest customers** with the **latest prototypes** - depending on their specific needs
- Support **market entry**, accompany **new product launches** and apply the **market push pull strategy**
- Order the samples, check the stocks regularly and keep them up-to-date and complete. To do this, you **work with SAP to ensure timely and efficient sampling to the customer**
- Prepare data, e.g. on stocks, and **present it in business meetings**
- You will work together with colleagues from Marketing, Sales, Supply Chain and Production in a **team across several locations**

This job is suitable for full- and part-time.

Profile

We need your ability to balance different tasks at the same time. You will achieve this through good self-organization and a cool head. You work confidently and precisely, and you have high expectations of your work results. In a team you will always look for the best solution, respect different attitudes and points of view and use the creative potential arising from it.

You are best equipped for this task if you have:

- A degree in the area of **Supply Chain Management, Management and Technology, Operations Research, IT** combined with business administration, **Industrial Engineering** or a similar course of study
- First professional experience in the area of **Sample Management** or **Supply Chain Management** as well as initial **insights into an industrial company**, for example through internships
- A high level of interest in **project management**
