

## Bachelor/Master Thesis: Supply Chain Automation 4.0 (f/m/div)\*

### Job description

Would you like to join an international office environment and work on Supply Chain Innovation? Do you want to write your thesis focusing on digitalization and automation trends? Don't miss the chance to apply now and join us in Infineon's headquarters!

At the Supply Chain Innovation Group, **we offer a variety of topics with focus on digitalization and automation trends** in the future. Topics are related to Infineon's needs and improvement potential and to the transfer of ideas from the science based core research to real world industry. As such, you will have to:

- **Understand the problem by means of analysis** of the current situation at Infineon;
- **Research on strategies and methods** to optimize the as-is status **and analyze their capabilities**;
- **Develop of an applicable solution** and **implement it in the industrial environment with real data and analysis of its actual impact**.

### Profile

You are best equipped for this task if you:

- Are **currently studying Mechanical Engineering, Electrical Engineering, Business Administration or Data Science**;
- Have **prior knowledge in Supply Chain Management and Automation or Information Engineering**;
- Have **writing, analytical and synthetic skills**;
- Are **able to bring forward your own ideas**;
- Are **fluent in English**.

Please attach the following documents to your application:

- CV in English;
- Certificate of enrollment at university;
- Latest grades transcript;
- High school report.
