

1-yr Contractor: Executive in Customer Logistics Management (Maternity Leave Replacement)

Job description

Infineon Korea is looking forward to working with a young, passionate talent in the position of one-year contractor in Supply Chain.

In your new role you will:

- Being the first point of contact for demand fulfillment topics across Infineon
- Implement Supply Chain concepts & agreements with legal requirements
- Drive solutions with all relevant internal stakeholders
- Internal & external relationship building / communication
- Order and forecast entry and management
- Order- and forecast confirmation
- Initiation of shipments incl. handling of emergency shipments
- Order change management / cancellation & rescheduling
- Consignment management
- Order tracking, early warnings and order improvements
- Support of invoicing (Credit block resolution; APAC: LoC handling)
- Support of FAR handling
- Operational EDI handling incl. workflows
- RMA interface to customer and Return center
- Customer basic data interface to Corp PL & CMD: delivery stop, delivery address, incoterms, forwarder, Sales Group RP
- Data maintenance: material determination-, substitute-, exclusion list
- Execution of allocation management acc. to allocation process
- Lead time communication towards the customers
- KPI self assessment

Profile

You are best equipped for this task if you have:

- 1-5 years in supply chain experience (semiconductor industry preferred)
- Customer negotiation skill with related experience
- Verbal and written communication in English
- MS Office Skill (SAP would be beneficial)
- Excellent communication skills
- Good presentation skills
