

Web Frontend Developer (f/m/div)*

Job description

At Infineon, we are working on a brand new Design System. And for that, we need a web-frontend developer who already built up design systems. This sounds like a job for you? Apply now and become part of our international team at Infineon in Klagenfurt!

As an experienced web-frontend developer you will maintain and develop the Design System and its components within the Design System core team and work closely with developers and designers to build a consistent and cohesive experience for our stakeholders and customers.

In your new role you will:

- **Maintain and develop the Design System**
- **Build a consistent and cohesive experience** for our internal and external customers
- **Support** our **stakeholder** regarding the Design System related to the technical point of view

During an **individual training phase**, we prepare you optimally for your new tasks. With **regular feedback discussions** and **planning of your professional and personal development**, we want to ensure your success in this job. In our international and multidisciplinary environment, you can also benefit from the extensive knowledge and expertise that characterizes Infineon employees worldwide. Your future tasks can partly be done in **Homeoffice**.

Profile

You are best equipped for this task if you have:

- **A technical or business administration degree** (Bachelor/Master)
- At least **3 years of professional experience** working as a **web-frontend developer**.
- **Good understanding** of basic **web development technologies** like HTML/CSS /Javascript as well as **practical experience** in developing of a framework like Angular, Vue and/or React-based web applications.
- **Experience with Source-Code-Management** like Github, Bitbucket and/or Git
- **Knowhow with Storybook** (as an advantage)
- Strong **understanding of UX/UI design** and the **creation of prototypes** by using prototyping tools
- **Good German & English** communication skills
- You like working in international teams and consulting on best practice solutions

Talent Attraction Manager

We are looking to fill this position through one of our partners. A valid Austrian work permit is a prerequisite. Our partner offers a payment of 2.954,71 EUR (gross) per month (14 times p.a.) according to the collective agreement for workers and employees in the electrical and electronics industry. A higher payment is negotiable depending on your expertise and skills. Furthermore, Infineon offers additional employee benefits.

Why Us

Part of your life. Part of tomorrow.

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Information Technology department** has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

The provincial capital **Klagenfurt**, in the heart of Carinthia, impresses with its liveliness, culture, numerous events and sights. The southern climate with the pictorial Wörthersee, the close link between urban infrastructure and rural areas as well as the proximity to Slovenia and Italy make Klagenfurt particularly livable. Find out what you like best about Klagenfurt and become part of our team:
