

## Application Developer in Network and Network Security Environment (f/m/div)\*

### Job description

Are you interested in working in an internationally operating company? Furthermore, you are looking for a new challenge where you can actively apply your skills and knowledge? Then join us now and become part of the Infineon team in Klagenfurt!

As a programmer, you will be responsible for identifying areas of improvement, implementing those enhancements, and documenting all results of your work.

In your new role you will:

- **Implement API interfaces** and tools
- Identify **improvement possibilities**, e.g. automation in the creation of views and reports
- Be responsible for the **automation of digital data transfer tasks**
- **Introduce** potential **improvements**
- Implement **customer-specific adaptation requests** (changes)
- **Document** your work results

During an **individual training phase**, we prepare you optimally for your new tasks. With **regular feedback discussions** and **planning of your professional and personal development**, we want to ensure your success in this job. In our international and multidisciplinary environment, you can also benefit from the extensive knowledge and expertise that characterizes Infineon employees worldwide. Your future tasks can partly be done in **Homeoffice**.

### Profile

You are best equipped for this task if you have:

- successfully graduated from a **technical college** (HTL) or **university of applied sciences** (FH) or higher
- **3-5 years of experience** with **software development environments** (ASP.NET, C#, focus on web applications) as well as with common **scripting languages** (e.g. Python, Pearl, PowerShell)
- **Knowledge** in the use of various **web servers** (HTML, PHP, Javascript)
- Familiarity with **databases** (especially MS SQL Server and Oracle)
- Skills in the area of **requirements analysis** and **modeling** (requirements engineering and modeling with UML)
- the ability to communicate in **English** and **German**, both written and spoken

### At a glance

Location: **Klagenfurt (Austria)**  
Job ID: **69261**  
Start date: **as soon as possible**

### Contact

**Martin Gabernig**  
Talent Attraction Manager

- Basic background in **programming graphical user interfaces** as well as experience with **asset management tools** and **reporting tools**
- A high degree of **communication skills**
- **ITIL knowledge** as a plus

We are looking to fill this position through one of our partners. A valid Austrian work permit is a prerequisite. Our partner offers a payment of 3.568,05 EUR (gross) per month (14 times p.a.) according to the collective agreement for workers and employees in the electrical and electronics industry. A higher payment is negotiable depending on your expertise and skills. Furthermore, Infineon offers additional employee benefits.

## Benefits

- **Klagenfurt:** Coaching, mentoring networking possibilities; Wide range of training offers & planning of career development; International assignments; Different career paths: Project Management, Technical Ladder, Management & Individual Contributor; Flexible working conditions; Home office options; Part-time work possible (also during parental leave); Sabbatical; Child care in Villach & Klagenfurt; On-site social counselling and works doctor; Health promotion programs; Discounted lunch possibilities; Private insurance offers; Corporate pension benefits; Flexible transition into retirement; Performance bonus; Accessibility, access for wheelchairs

## Why Us

**Part of your life. Part of tomorrow.**

We make life easier, safer and greener – with technology that achieves more, consumes less and is accessible to everyone. Microelectronics from Infineon is the key to a better future. Efficient use of energy, environmentally-friendly mobility and security in a connected world – we solve some of the most critical challenges that our society faces while taking a conscientious approach to the use of natural resources.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

The **provincial capital Klagenfurt**, in the heart of Carinthia, impresses with its liveliness, culture, numerous events and sights. The southern climate with the pictorial Wörthersee, the close link between urban infrastructure and rural areas as well as the proximity to Slovenia and Italy make Klagenfurt particularly livable.
