

1-yr Contractor: Silicon Foundry Management Specialist

Job description

Infineon Korea is looking forward to working with an experienced talent in the 1-year contractor position for Silicon Foundry (SIFO) Management. This position is for maternity leave replacement, and to support to drive SIFO Partners' performance to achieve Operational Excellence. Additionally, this position will be in the matrix team which is composed of cross functional teams to resolve customer issues and managing the SIFO Partner Continuous Improvement Programs (CIPs).

In your new role you will:

- Support on operation, quality, capacity improvement from Silicon Foundry (SIFO) partners to meet the targets
- Support Operation Manager as technical contact for any technology topic
- Support to delivery rolling volume forecast to SIFO partners after aligning with internal customers and planning team and drive for demand capacity confirmation
- Support Work route / basic data implementation on SIFO partners
- Support and maintain the partnership together with Foundry Manager and Procurement team
- Take care of customer return or fab excursion tasks and coordinate with other departments' support to close the cases in shortest time

Profile

You are best equipped for this task if you have:

- Bachelor / Master's Degree of Science in Physics, Chemistry, Material Science, Electrical Engineering or related engineering degree
- Minimum 2 years of fab-related experiences, but less-than-2 year experiences can also be considered if the qualification is met.
- Experiences in process integration, product engineering, wafer sorting and customer service engineering. IC design experience will be a plus.
- Team Player
- Fluent in English
