

Driving decarbonization and digitalization. Together.

IT Product Owner for Enterprise Project Management Solutions (f/m/div)

Job description

Join our team in Klagenfurt as an IT Product Owner and Business Analyst, shaping the future of our Project and Portfolio Management solutions! Join our team and assume full responsibility for the application lifecycle, from design to development, deployment, and operations. Working alongside enterprise architects, subject matter experts and business stakeholders, you will gather requirements, propose innovative ideas, and design efficient and scalable systems. Make a significant impact and contribute to exciting projects as a Product Owner.

In your new role you will:

- **Assume end-to-end responsibility** for the **application lifecycle** from design to development, deployment and daily operations as an IT business analyst and **product owner** within our service portfolio, e.g. project management solutions
- **Work closely with business owners and key stakeholders** to gather, analyze and consolidate diverse requirements and transform them into solution proposals in close collaboration with enterprise architects and subject matter experts
- **Drive delivery and IT operations** in close cooperation with our development teams and service providers
- **Work with software developers and architects** to design systems that are efficient, effective, and scalable
- **Navigate complex dependencies and create strategic roadmaps**
- Act as a **Project Manager** for **small and mid-sized IT projects**
- **Coordinate and conduct user acceptance tests**

During an **individual orientation phase**, we will prepare you in the best possible way for your new responsibilities. With **regular feedback meetings and systematic planning of your professional development**, we want to support and ensure your success in this position.

In addition, you will have the opportunity to perform some of your tasks in your **home office (Hybrid)** and you can arrange your working hours flexibly.

Profile

You are best equipped for this task if you have:

- A **degree** (Bachelor/Master) in **Business Informatics, Information Systems, Industrial Engineering** or in a related field

At a glance

Location: **Klagenfurt (Austria)**
Job ID: **98457**
Start date: **as soon as possible**

Katharina Thaler

- At least **3-5 years of relevant professional experience** in a similar role in corporate IT or IT consulting
- **Hands-on experience** in **agile project management** (e.g. Scrum), requirements engineering and its related methods and tools (e.g. Jira, Confluence)
- **Good knowledge in software life-cycle** (DevOps incl. development, quality control, deployment, etc.)
- Sound **knowledge of ITIL-based service management processes**
- Good understanding of and hands-on experience with **modern web technologies, frameworks and IT technologies**
- **Knowledge of enterprise project management solutions**, methods and best practices (as an advantage)
- Excellent **communication, collaboration and problem-solving skills** with the **ability to work effectively** with cross-functional teams
- Very good **Microsoft Office** skills
- **Excellent English skills**; German as an advantage

We are looking to fill this position through one of our partners. A valid Austrian work permit is a prerequisite. The employment is in accordance with the collective salary and wage agreement for employees of the electrical and electronics industry, employment group G (<https://www.feel.at/wp-content/uploads/2022/05/minimum-salaries-white-collar-workers-2023.pdf>). A higher payment is negotiable depending on your expertise and skills. Furthermore, Infineon offers additional employee benefits.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

The **Information Technology** department has become an important business advisor for Infineon, converting business requirements into great IT solutions. It is responsible for provisioning hardware and software solutions at benchmark costs for all areas within Infineon reaching from office users to research & development, to frontend and backend production around the globe. More than 1000 IT-colleagues work closely together with other business areas and external partners. They increase the efficiency of business processes offering more than just modern equipment, secure infrastructure and newest communication solutions.

The provincial capital **Klagenfurt**, in the heart of Carinthia, impresses with its liveliness, culture, numerous events and sights. The southern climate with the pictorial Wörthersee, the close link between urban infrastructure and rural areas as well as the proximity to Slovenia and Italy make Klagenfurt particularly livable.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
