

Driving decarbonization and digitalization. Together.

Trainee Engineer (YGT)

Job description

In your new role you will:

- Industry experience of 0 - 2 years especially in embedded low-level firmware development for microcontrollers, low-level drivers, BSP, embedded applications and SW tools
- Familiarity with embedded firmware elements such as peripheral drivers (CAN, LIN, SPI, I2C), real-time execution and debug tools as well as embedded application software.
- Knowledge of hardware and circuit design is a plus
- Should have worked with embedded microcontrollers such as PIC, 8051, MSP430, PSoC, etc. to build simple working systems
- Good articulation skills for customer interfacing and proficient in English
- Most importantly, a high level of passion, adaptability to processes and ownership for the projects that you work on.

Profile

You are best equipped for this task if you have:

- You will be part of a global automotive applications team and responsible for creating end-to-end application tools for automotive microcontrollers that would be delivered to customers worldwide.
- Your role includes understanding device applications, building low-level firmware, new silicon bring-up, creating and optimizing system level functionality of Infineon microcontrollers,
- Demos and technical documentation, and closely working with global customers to help them evaluate Infineon automotive MCUs.

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
