Senior Staff Specialist Program Management Support

Job description

The Senior Staff Specialist Program Management supports the management in a semiconductor technology company by providing support in a diverse range of programs and projects. Key activities and task includes organizing workshops, facilitate idea generation, moderate discussion, prepare communications package, lead projects, follow-up on the tasks and actions to ensure timely execution.

- Assist the Technology Management in coordination of critical projects or tasks to ensure timely execution
- Supports programs across the organization and drive the sub-activities/work packages for various improvement projects
- Monitor the progress of the programs/projects, analyze data, evaluate status and prepare executive summary for management for multiple projects and programs
- Drive improvement projects across the organization to maximize the efficiencies of the business (e.g. procedures, workflow, office automation, material storage)
- Responsible for preparing and communicating the Key Performance Indicators (KPI) report of the department
- Facilitate brainstorming/meetings, keeping discussion focused and prepare meeting minutes and document the discussions and next steps.
- Responsible for the planning, coordination and organization of workshops / departmental events
- Support the management in preparing communications / presentation package on various topics
- Perform any other tasks assigned from time to time

Why Us

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant´s experience and skills.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
