## Internship: Strategy Projects – Inhouse Consulting (f/m/div)

### Job description

We are one of the TOP 10 semiconductor companies in the world. That's why you probably use our products every day - in your smartphone, notebook, or coffee machine. Modern technology would not be possible without semiconductors and their impact will grow as the world becomes more green, digital, and connected. Do you want to help us drive this transformation and shape the strategy for a global high-tech company by becoming a full-fledged member of our central Strategy Projects inhouse consulting team for 4-6 months, starting at or around mid September? Then apply! We are looking forward to your application!

- **Shape the future:** You are actively participating in the execution of high impact strategic projects and take ownership of your own work-streams
- **Teamwork:** You are part of a small, diverse team of high performing strategy project managers (50+% female) with broad experience from previous roles at top management consultancies and from within Infineon
- **Understand:** You research and analyze complex information, understand the implications and visualize your findings concisely for communication towards senior business leaders

### Profile

- **Study field:** You successfully completed a Bachelor degree at a renowned university with outstanding academic performance, ideally business administration or natural sciences / engineering
- **Work experience:** You bring work experience from your time as an intern or working student, at a renowned consulting company or in a corporate strategy environment
- **Motivation:** You are self-driven, highly motivated and have a keen interest in both technology and business strategy
- **Skills:** You are able to handle complex data sets in Excel and visualize/present in PowerPoint with confidence, AI related skills are a bonus
- **Language skills:** You have excellent command of English, both written and spoken

Please attach the following documents to your application:

- CV in English

### **Driving decarbonization and digitalization. Together.**

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

### **– You can find the headquarters of Infineon Technologies AG in Neubiberg –**

In Campeon, besides working towards our goal of being one of the most sustainable companies in the world, we are improving everyone's future by making the technology of tomorrow.

At Infineon, we take work-life balance very seriously. You will be a step away from the center of Munich with its infinite possibilities. Whether you're a history buff, a foodie, or simply looking for relaxation in the city. Munich has something for everyone. Come and discover the warmth and charm of this city, where Bavarian hospitality meets modern urban living.

### **We are on a journey to create the best Infineon for everyone.**

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
