

Driving decarbonization and digitalization. Together.

Working Student: Digital Process Governance (f/m /div)

Job description

As a global semiconductor leader in power systems and IoT, we enable game-changing solutions for green and efficient energy, clean and safe mobility, as well as smart and secure IoT. That's why you probably use our products every day: smartphone, charger, electric toothbrush, coffee machine, refrigerator, remote control and much more. At PSS D you will join the Digital Roadmap and Innovation Solutions Team driving the harmonization and digitalization of internal processes. We are looking forward to your application!

- **Focus on the future:** You manage and drive the strategic change to a new tool and therewith improve the established process of aligning digital development roadmaps
- **Convince with words:** You perform information and update sessions for various cross-divisional stakeholder and divisional internal user groups
- **Stakeholder management:** You enable different stakeholders individually and service-oriented while keeping the bigger picture in mind
- **You make the change:** You facilitate workshops, prepare management level presentations and steer alignment sessions
- **Be creative:** You create communication material, process concepts, and prepare data visualizations
- **Teamwork is dreamwork:** You support the team with additional administrative tasks, e.g. creating training materials, first-level support, co-organizing workshops, and drafting presentations

Profile

- **Study field:** You are currently enrolled in your Bachelor or Master studies in a business, informatics, media, engineering degree or similar
- **Experience:** You already gained relevant work experience, preferably in process or project management
- **Way of working:** You are self-driven and comfortable with a high degree of freedom while working focused delivering a high level of quality
- **Personality:** You have a strong ability to structure complex processes, organizations, and interdependencies while showing entrepreneurial spirit and strong interpersonal skills
- **Skills:** You possess very good Microsoft Office skills, especially Excel and PowerPoint with a good level of visualization skills being a plus
- **Language skills:** You have a good command of English

At a glance

Location: **Munich (Germany)**
Job ID: **HRC0773653**
Start date: **Jun 15, 2024**
Entry level: **0-1 year**
Type: **Part time**
Contract: **Temporary**

Driving decarbonization and digitalization. Together.

Infineon designs, develops, manufactures, and markets a broad range of semiconductors and semiconductor-based solutions, focusing on key markets in the automotive, industrial, and consumer sectors. Its products range from standard components to special components for digital, analog, and mixed-signal applications to customer-specific solutions together with the appropriate software.

– Power & Sensor Systems (PSS) drives leading-edge power management, sensing, and data transfer capabilities –

The **PSS division** powers decarbonization and digitalization with a wide range of energy-efficient and digital solutions. PSS semiconductors help avoid carbon emissions, use resources sustainably, manage power effectively and intelligently, give

'things' smart senses, and process data quickly and reliably. The portfolio includes power, connectivity, RF, and sensor system technologies to develop smaller, lighter, smarter, and more efficient solutions for consumer devices, smart home/building applications, robotics, computing and data centers, charging devices, power tools, and much more.

The next generation of silicon and wide-bandgap (SiC and GaN) solutions provides unparalleled performance and reliability for 5G, big data, and renewable energy applications. These materials are paving the way for further energy and carbon savings. Highly precise XENSIV sensor solutions are enabling IoT devices to react intuitively to their surroundings for seamless user interactions while audio amplifiers bring exceptional sound experiences to smart speakers and other audio use cases.

We are on a journey to create the best Infineon for everyone.

This means we embrace diversity and inclusion and welcome everyone for who they are. At Infineon, we offer a working environment characterized by trust, openness, respect and tolerance and are committed to give all applicants and employees equal opportunities. We base our recruiting decisions on the applicant's experience and skills.

We look forward to receiving your resume, even if you do not entirely meet all the requirements of the job posting.

Please let your recruiter know if they need to pay special attention to something in order to enable your participation in the interview process.
